- Responsive 14.6HP Gasoline Engine
- Continuously Variable Transmission with Inertial Clutch (CVT Plus)
- Standard 4-Wheel Drive

- Smooth, quiet 15.8HP Gasoline Engine
- Exclusive Variable Hydro Transmission (VHT Plus)
- Standard 4-Wheel Drive
Introducing the gas-powered 4WD RTV400Ci featuring mid-size utility, agility, and legendary Kubota reliability

Featuring a robust, heavy-duty platform, electronic fuel injection (EFI) and an advanced Continuously Variable Transmission (CVT Plus) for excellent response and reliability, the 4WD RTV400Ci will be at your ready, whether you’re surveying your property or jobsite, caring for livestock, or hunting in the woods.

Designed for Convenient Transportation
Kubota specifically designed the RTV400Ci’s compact frame to make it easy to load into the bed of a full-size long bed pickup truck*. It’s ideal for camping, hunting, or any rugged outdoor adventure.

Robust, reliable semi-independent rear suspension

54.7 inches

72 inches

14.6HP Air-cooled EFI Gasoline Engine

The RTV400Ci incorporates a new, high-revving 14.6HP air-cooled, single-cylinder gasoline engine that was developed to meet Kubota’s stringent performance specifications and durability requirements. This engine also features an Electronic Fuel Injection (EFI) system that helps eliminate cold starting issues and annoying manual choke adjustments that plague competitors’ carbureted utility vehicles.

CVT Plus

(Continuously Variable Transmission with Inertial Clutch)

This RTV400Ci’s CVT Plus is virtually worry free. The exclusive inertial clutch keeps the thick, double cogged-belts tight for minimal slippage, resulting in greater response and much better durability than the competitors’ belt-drive systems. As an additional plus, the inertial clutch provides noticeable dynamic braking to help maintain control during descents with engine-assisted deceleration. And for more plus, CVT Plus has a full protection cover to minimize mud or dust intrusion, enhancing durability and enabling a longer belt life.

Comfortable Operator Area

Get in and get going. The RTV400Ci features ergonomic, well-placed controls for easy operation, and a comfortable contoured bench seat, so both the driver and passenger can enjoy a full day of work or play. The low operator platform offers ample and obstacle-free leg room, so it’s simple to step on or off.

Designed for Convenient Transportation
Kubota specifically designed the RTV400Ci’s compact frame to make it easy to load into the bed of a full-size long bed pickup truck*. It’s ideal for camping, hunting, or any rugged outdoor adventure.

*Always secure RTV with proper tie-downs, especially with open tailgate.
The RTV500—advanced technology from Kubota delivers exceptional performance and reliability in a compact size.

Whether you're tending a park, hunting in the woods, or simply roaming your property, let Kubota's RTV500 take you wherever you need to go. This quiet utility vehicle features Kubota's durable liquid-cooled EFI gasoline engine, variable hydrostatic transmission, and more—all packed into a compact body. Used for a variety of applications, it's powerful and rugged enough to handle uneven terrain, yet it can fit into the bed of a full-size pickup truck, so you can take it with you. With all of this and more, you can rest assured that the high-performance RTV500 is always at the ready, no matter where you want to go.

Kubota Liquid-cooled EFI Gasoline Engine

The RTV500's smooth 15.8HP, 2-cylinder Kubota gasoline engine is liquid-cooled to ensure reliability and minimize noise and vibration, reducing operator fatigue and increasing efficiency. The engine features an Electronic Fuel Injection (EFI) system that provides on-demand power, optimizes acceleration and enhances quiet operability. Plus, the EFI eliminates the need to adjust the carburetor—enabling better engine start-up in cold weather or after long-term storage, and improving engine serviceability.

VHT Plus (Variable Hydro Transmission)

Kubota’s exclusive and innovative hydrostatic transmission provides the RTV500 with an exceptional level of performance, handling, and reliability under tough conditions. Approach long downhill grades with confidence utilizing the VHT Plus’ smooth, engine-assisted deceleration. In addition, the VHT offers outstanding traction and impressive power, providing the muscles to take you almost anywhere.
