

Kubota®

2021 FULL LINE BROCHURE

TRACTORS / HAY TOOLS / CONSTRUCTION EQUIPMENT / UTILITY VEHICLES / MOWERS

You know that feeling of accomplishment after a long day of working the land?

Whether it's turning soil, pushing dirt, making hay or mowing grass, that feeling lingers on when you're confident that you have the right equipment for the job, doing its part right along with you, day after day.

It's that confidence that leads to a whole new level of productivity, ultimately helping you achieve your vision.

At Kubota, we have a near 50-year history of providing precisely engineered machines with confidence-backed quality to ensure our customers can do more every day.

We know doing your homework is part of the job because it leads to making informed choices about your equipment and its ability to perform when you need to get the job done.

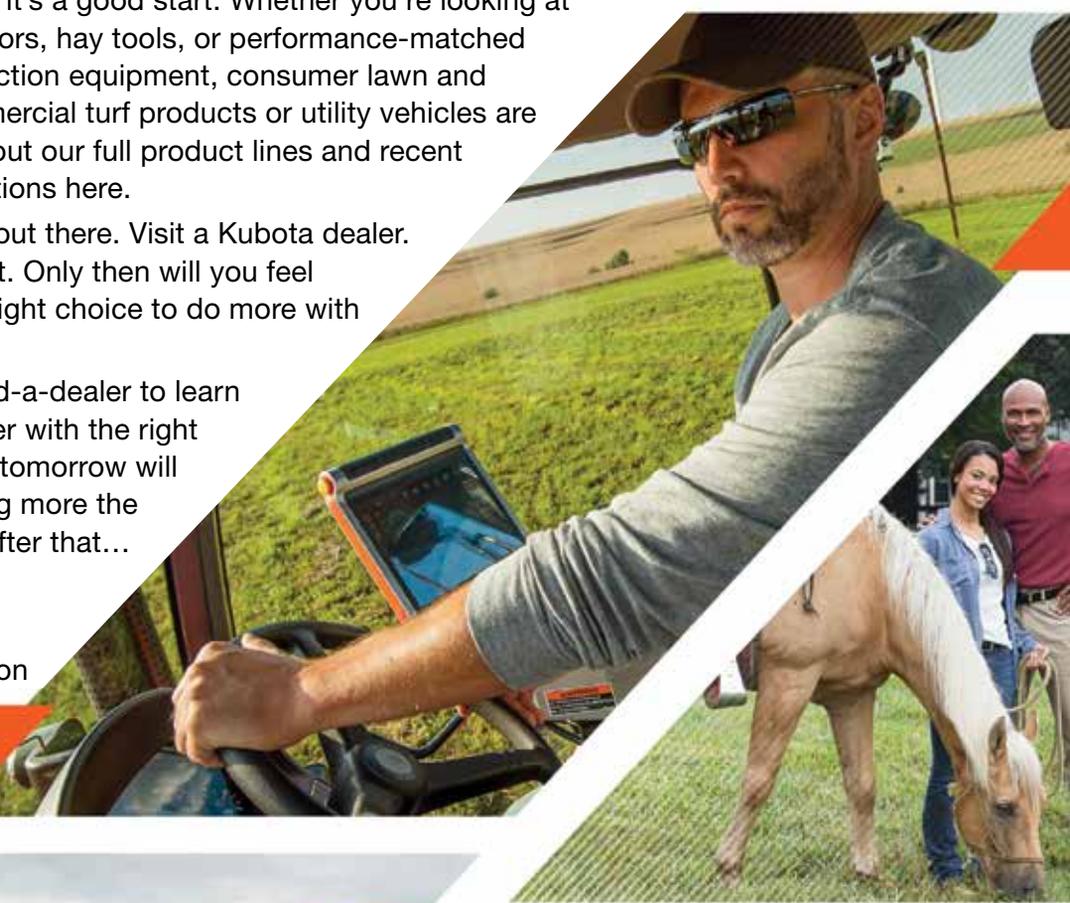

We know you won't make your buying decision solely based on what you read in this brochure, but it's a good start. Whether you're looking at our complete line of tractors, hay tools, or performance-matched implements, or if construction equipment, consumer lawn and garden equipment, commercial turf products or utility vehicles are what you're after, check out our full product lines and recent innovations and introductions here.

But don't stop here. Get out there. Visit a Kubota dealer. Best of all, climb in a seat. Only then will you feel confident you made the right choice to do more with Kubota.

Visit KubotaUSA.com/find-a-dealer to learn how we can work together with the right tools to help shape what tomorrow will bring, and keep you doing more the next day... and the day after that... and the day after that...

Together We Do More.

BX Series

BX1880 | BX2380 | BX2680

Easy operation, superior comfort, and simple operation.

- › Kubota's Swift-Tach Loader allows for quick and easy removal and installation of the front loader without tools and without getting off the operator station
- › With an overall height of less than 7', the BX1880, BX2380, and BX2680 make storage a breeze— not having to fold the ROPS to park your tractor in a standard garage saves time and hassle
- › With a Standard Category I 3-point hitch, optional mid-mount mower decks, and an available front hitch, the BX Series can be equipped with an implement to quickly and easily handle most any task
- › The BX2380 and BX2680 deluxe operator's station with tilt steering and a deluxe high-back seat with armrests create a comfortable operator experience, making any chore seem less like work and more like fun
- › Equipped with a Hydrostatic Transmission (HST), the BX Series tractors are easy to use— simply press the pedal forward to go forward, press the pedal backwards for reverse— our treadle pedal system will have even first-time owners operating like professionals in no time
- › Got snow? The Kubota Heated Cab is a great dealer-installed option to add to your BX Series to improve comfort and protect yourself during those cold winter months

BX Series

BX23S

Easy operation, superior comfort, and simple operation.

- › Kubota's Swift-Tach Loader allows for quick and easy removal and installation of the front loader without tools and without getting off the operator station
- › The Kubota Swift-Connect Backhoe on the BX23S is designed to match perfectly with the tractor and loader: not only designed to tackle tough digging jobs, but also designed to be versatile, the BX23S can be converted from a backhoe to a tractor with a 3-point hitch quickly, easily, and without tools
- › With an optional Category I 3-point hitch, optional mid-mount mower decks, and an available front hitch, the BX Series can be equipped with an implement to quickly and easily handle most any task
- › The BX23S has a deluxe high-back seat with armrests, tilt steering, and reversible seat for comfort when operating the tractor, loader, or backhoe
- › The ROPS operator opening has been widened, giving the operator additional room and comfort when operating the backhoe
- › Equipped with a Hydrostatic Transmission (HST), the BX Series tractors are easy to use — simply press the pedal forward to go forward, press the pedal backwards for reverse — our treadle pedal system will have even first-time owners operating like professionals in no time
- › Got snow? The Kubota Heated Cab is a great dealer-installed option to add to your BX Series to improve comfort and protect yourself during those cold winter months

B01 Series

B2301HSD | B2601HSD | B2401DT | B2401DTN

Ease of use, versatile, and reliable.

- › The Standard B Series can be equipped with a Kubota engineered and built Front End Loader, which is designed to meet all your task needs and can be removed from the tractor easily, no tools required
- › Kubota's Swift-Tach Loader, the LA435, allows for quick and easy removal and installation of the front loader without tools and without getting off the operator station
- › Available with a 54" or 60" mid-mount mower deck, the Standard B Series is designed to meet all your turf mowing needs
- › Available Kubota front hitch allows for easy attachment or removal of front blade, front sweeper and front snow blower
- › Both the B2301HSD and B2601HSD models are designed to be comfortable throughout the entire day with features such as an easy-to-use HST transmission, a large semi-flat operator deck, tilt steering and a high-back suspension seat with standard arm rests
- › The all new B2401 model provides power and functionality at an affordable price with features such as a gear-drive transmission, large semi-flat operator deck, easy-to-use control levers and the unmatched Kubota quality.
- › A Category I 3-point hitch with a quarter inching valve allows for a multitude of rear implements to meet any customer needs
- › New R14 tires give you the versatility of a R1 (AG) and R4 (Industrial Tire) but provide less vibration than the R1 and more traction than the R4

All NEW LX Series

LX Series

LX2610SUHSD | LX2610HSD | LX3310HSD

Quality. Comfort. Versatility.

- › The all new LX2610HSD & LX3310HSD optimizes operator station comfort with deluxe features such as a wide, spacious flat deck, reclining high-back suspension seat with standard armrests, tilt-steering, cruise control, telescopic stabilizers, mid and rear PTO, integrated loader joystick and easy-to-use color-coded controls
- › The all new affordable LX2610SUHSD Special Utility model offers both value and quality in deluxe features such as the wide, spacious flat deck, rubber floor-mat, integrated loader joystick, easy-to-use color-coded controls, telescopic stabilizers and live-independent PTO
- › The new LX Series offers a wide variety of tires and sizes to fit your needs. The all new Goodyear R14T hybrid tires maximize versatility by providing more traction than R4 (Industrial) tires, but less vibration than R1 (Ag) tires for a smoother ride
- › Continuing Kubota's reputation for quality, the new LX Series is Kubota-built front to rear. Features include Kubota-built diesel engines such as the new 4-cylinder, turbo-charged common rail (CRS) diesel engine (LX3310 models only), a Kubota-built transmission, one-piece full-open steel hood, steel platform and steel fenders
- › The LX Series can be equipped with the new Kubota-built, performance-matched LA535 Front Loader. Features include a standard 2-lever Quick Coupler for universal attachments, an optional industry-exclusive Swift-tach kit with a One-Lever Quick Coupler for faster loader removal, and an optional industry-exclusive Mechanical Self-Leveling kit for easier material handling including pallet fork applications
- › Designed to be versatile, the LX Series can be equipped for a wide variety of applications. Additional implements available include Kubota-built 60" or 72" Mid-Mount Mower decks, the Kubota-built BH77 backhoe, Kubota's new 4-Point Quick Connect Front Hitch with front blades, front sweeper and front snow blower options, plus a full lineup of Land Pride's Performance-Matched implements

Standard L01 Series

L2501F/DT/HST | L3301F/DT/HST L3901F/DT/HST
L4701F/DT/HST

Affordable, durable, versatile, and easy to use.

- › All L01 Series can be equipped with a Kubota engineered and built Front End Loader, designed to safely and efficiently meet all your front loader needs; add to this the fact that all L01 Front Loaders come standard with tool-less front loader removal, and you know you have the best tool for the job
- › All L01 Series can be equipped with a backhoe that has been engineered and built by Kubota
- › Available with an efficient and cost-effective gear transmission or an easy-to-use hydrostatic transmission (HST)
- › With four different horsepower models available in 2- or 4-wheel drive, you are sure to find an L01 that can fit your specific needs
- › Semi-flat operator station with ergonomic controls, suspension seat, and an easy-to-read dash panel increases operator comfort and decreases fatigue
- › Strong cast steel axles and rear end housing along with steel hood and fenders create a tough, durable tractor that is sure to provide years of use, even in the toughest job conditions

NEW L60LE Series

L60LE Series

L3560LE | L4060LE

Affordability. Quality. Comfort.

- › New to the Kubota lineup, the L60LE series with HST Plus Transmission provides deluxe Grand L features at an affordable price
- › With ROPS and cab options ranging from 37.0 to 42.0 gross horsepower, Kubota's L60LE Series offers four affordable horsepower models to choose from based on your application and implements requirements
- › The L60LE Series is equipped with a heavy duty front axle, cast steel transmission and rear end, as well as steel hood and fenders, making them built to last
- › HST Plus Transmission comes standard with productivity-increasing features like Stall Guard, H-DS (Hydraulic-Dual Speed), Auto-Throttle Advance, and an engine Throttle-Up Button — all of these features can be turned on or off easily based on the operator's needs and preferences
- › All L60LE Series have a deluxe operator's station that includes a premium seat with armrests and adjustable suspension seat, air-ride seat option, tilt steering, Kubota IntelliPanel dash display, and a flat operator station with excellent legroom. Additionally, enjoy year round comfort with the L60LE Series wide, spacious deluxe cab models
- › Performance matched Kubota front loaders, backhoes, and front mounted snow attachments available plus a full line up of Land Pride performance matched implements

Grand L60 Series

L3560 | L4060 | L4760 | L5060 | L5460 | L6060

Unmatched comfort and full-featured design.

- › All Grand L60 Series Tractors can be equipped with performance-matched Front End Loaders and Backhoes that are engineered and built to maximize performance and increase efficiency
- › Available 4-Point Front hitch offers increased versatility. Customers can quickly and easily add a front blade, front snow blower, front broom, or front flail mower to their Grand L60
- › Available with an HST Plus (Hydrostatic Transmission), GST (Glide Shift Transmission), or FST (Fully Synchronized Main and Shuttle Transmission), the Kubota Grand L60 Series offers the choices you need to maximize your productivity
- › Factory Cab (heat and A/C) is available on all Hydrostatic Transmission (HST) models
- › HST Plus Transmission comes standard with productivity-increasing features like Stall Guard, H-DS (Hydraulic-Dual Speed), Auto-Throttle Advance, and an engine Throttle-Up Button — all of these features can be turned on or off easily based on the operator's needs and preferences
- › All L60 Series have a deluxe operator's station that includes a premium seat with armrests and adjustable suspension seat, air-ride seat option, tilt steering, Kubota IntelliPanel dash display, and a flat operator station with excellent legroom — these key features and many more help to make the Grand L60 a pleasure to operate

NEW MX Series

MX Series

MX5400 | MX6000

Affordable. Comfort. Versatility.

- › Achieve year-round comfort with the all new MX cab. This wide, spacious cab features a flat platform with plenty of legroom, tilt-steering, A/C & heating, easy access and use of operator levers and controls as well as the ability to accessorize it to fit your needs
- › Kick back and relax in the new MX ROPS with features such as a wide, spacious flat rubber floor-mat deck, suspension seat and easy-to-use, ergonomically located color-coded controls
- › Whether your needs are to maximize productivity with the cost-effective gear-drive transmission, or to have smoother performance, greater operator comfort and ease-of use with the HST Transmission, the MX series offers you affordable choices in both CAB and ROPS models
- › Specifically designed to match the MX Series for maximum performance, the Kubota-built LA1065 Front Loader provides the power needed for heavy-duty jobs with its high lift capacity, lift height and breakout force
- › Versatility is unmatched with the new MX Series. With a tight turning radius, Cat. 1 & 2 Three-Point Hitch, Kubota's LA1065 Front Loader and BH92 Backhoe plus a full lineup of Land Pride performance-matched implements, the MX Series was made for both big and small applications
- › Affordability isn't just the upfront purchase, it's there for the long haul. The MX Series feature strong, cast steel axles and rear end housing, a steel platform and fenders, a one-piece full-open steel hood, the world renowned Kubota Diesel Engine and protected hydraulic hoses. The MX Series is built to minimize maintenance cost by withstanding heavy loads or potential wear and tear over the years

M60 Series

M5660SU | M6060 | M7060

These diesel tractors were designed and built with both you and the environment in mind.

- › Kubota's revolutionary Common Rail System (CRS) with Exhaust Gas Recirculation system (EGR) and Diesel Particulate Filter (DPF) muffler combine more torque at low RPM with less emissions and better fuel efficiency
- › These engines take tractor performance to the next level and comply with the latest Tier 4 Final EPA emission regulations
- › State-of-the-art external hydraulic cylinders improve lifting power and offer easier maintenance
- › The innovative and stylish design of the cab gives the operator a more comfortable and spacious environment year-round, with a curved upper windshield to increase upward visibility and rounded glass—ideal for long days inside the cab
- › Engines feature electronic control of engine RPM—with the push of a button, the system keeps engine revolution constant, making working with PTO-driven implements much more efficient
- › Hydraulic Shuttle Transmission is standard on all models for effortless shifting between forward and reverse
- › The M5660SU offers an ample 17.2-gallon (65 L) capacity fuel tank to keep you working longer between fill-ups

M4 Series

M4D-061 | M4-071 | M4D-071

Two deluxe models and one standard model, all featuring wide cabs ergonomically designed to maximize your comfort and productivity.

- › The upgraded, category II cab is one of the largest in its class; it comes standard with a high visibility roof panel, is pressurized for dust resistance, and designed for optimal functionality
- › The economy PTO reduces fuel consumption and operating cost
- › With 16.7 gallons per minute of hydraulic flow, operators can complete more work in less time, especially for loader work
- › The interior console light delivers better visibility of controls while operating at night. With an electro hydraulic shuttle and Declutch button, Kubota delivers transitions between gears with simplicity and ease
- › Two remote valves, One Self-Canceling Detent and one Float valve, come standard on the Deluxe models
- › The M4 Series tractors are built tough with over 3300 pounds of 3-point lift capacity at 24 in. behind the lift points
- › The instructor seat comes standard on the Deluxe model and is optional on the Standard model

M5 Series

M5-091 | M5-111

The M5 Series tractors have been engineered inside and out to be spacious and versatile.

- › The M5-091 and M5-111 combine Kubota's DPF (Diesel Particulate Filter) with SCR (Selective Catalytic Reduction) technologies to create an exceptionally clean engine that meets Tier 4 Final regulations
- › Using the Constant RPM Management switch keeps engine revolution constant, preventing drops in PTO speed and enabling stable, more efficient operation
- › We bring you luxury with the Ultra Grand Cab II: a fully enclosed cab with air conditioning, a sunroof with a retractable sunshade, rubber cushions under the cab, and an optional instructor's seat for new levels of comfort
- › Electro Hydraulic Shuttle for smooth shifting between forward and reverse eliminates the need to depress the clutch every time you change directions
- › Hydraulic Wet Disc Brakes increase overall tractor longevity
- › Bevel-gear front axle provides greater all-around maneuverability
- › A category II 3-point hitch allows fast and simple attachment of rear-mounted implements
- › Floating lift rods come standard for a smoother ride and enhanced traction while using the 3-point hitch

M6S Series

M6S-111

A clean-running engine with the power and speeds to tackle a wide range of jobs, and an ergonomic design for comfort during those long hours.

- › Technology-driven V-3800 Tier 4 Final engine features a Common Rail System (CRS), intercooler, and Exhaust Gas Recirculation (EGR), and uses a Diesel Particulate Filter (DPF) and Selective Catalytic Reduction (SCR) for minimized emissions
- › Design of the main shift lever provides a comfortable, easy-to-use feel and better visibility of the lever's shift stages (Hi-Lo, etc.) to increase operator efficiency
- › Kubota Swing Shift provides you access to 16 speeds, and an optional creep provides eight additional slower speeds
- › Swing Shift Plus Transmission models give you 32F/32R speeds and allow you to operate the Swing Shift as well as the Dual speed with just one lever
- › De-clutch button is available on all models, allowing you to shift a gear without using the clutch pedal
- › This tractor is ready to accept implements requiring multiple valves with the M6S now having two standard rear remote valves — one self-canceling detent valve and one floating detent valve — and an optional third remote valve

M6 Series

M6-101 | M6-111 | M6-131 | M6-141

Take full advantage of the M6 Series tractors' performance with control, maneuverability, and clean engines that don't sacrifice power.

- › Measuring 65.5" by 61.4", the Grand X Cab offers more headroom and legroom for a higher level of comfort and greater visibility
- › All M6 models include the 24F/24R Intelli-Shift Transmission, featuring an 8-speed power shift with a 3-speed hi/mid/low range for 24 gears in forward and reverse
- › Tilt and telescopic power steering
- › The M6-141 DTSC-F model comes with a front suspended axle which provides the operator with a smoother ride, increased tractor stability and higher productivity
- › When the M6 Series' Work Kruiise is turned on, there is no need for throttle adjustment
- › A Kubota-exclusive bevel-gear front axle ensures easy tight-turning radius and excellent maneuverability
- › M6 series tractors have 18.7 gpm (M6-101/M6-111) and 20.4 gpm (M6-131/M6-141) hydraulic pumps

M7 Series Gen 2

M7-132 | M7-152 | M7-172

M7 Generation 2 Tractors: More power, productivity, and comfort with the same Kubota quality, as well as new options and features for your operation.

- › M7 Gen 2 Deluxe models with high performing CCLS hydraulics, mechanical rear remotes, and optional bar axles. High performance with less electronics and simplified controls.
- › 30 x 15 with available factory installed creep for a total of 54 forwards gears, transmissions with 5 ranges and 6 speeds. Widening the working range for increased in-field performance. Enhanced auto shifting with Range Advance for better travel operation.
- › Kubota V6108 engines with redefined torque curves and lower operating RPM for increased torque, performance, and fuel economy.
- › Improved KVT transmission control with more responsive multifunction handle and smoother shuttle operation.
- › All M7 Gen 2 tractors have loader ready features standard.
- › Optional front field installed and PTO available on all M7-2 models.
- › 7" K-Monitor and optional 12" K-Monitor Pro add fingertip control for all tractor functions and ISOBus compatibility on all Premium and Premium KVT tractors.
- › Models Available:
M7-132, M7-152 & M7-172 Deluxe
M7-152 & M7-172 Premium
M7-152 & M7-172 Premium KVT

M7 Series Gen 2

Model	M7-132	M7-152	M7-172
Engine	V6108-CR-TIEF4		
Type	Direct Injection, with Intercooler turbocharger, water-cooled 4 cycle diesel engine		
No. of Cylinders	4 cylinders		
Total Displacement (cu. in.)	374		
Max Engine Power (97/68EC) HP@RPM	128 @ 1,900	148 @ 1,900	168 @ 1,900
Boost HP	20		5
Rated PTO HP @ 2000 engine RPM (OECD Code 2)	100	120	140
Alternator (amps)	200 Amp		
Fuel Tank Capacity (gal.)	87		
DEF Tank Capacity (gal.)	10		

GRADE	DELUXE	PREMIUM	PREMIUM KVT
Transmission Type	Semi-Powershift		CVT
Main Gear Shift	6-Speed Powershift		CVT
Range Gear Shift	5-Speed Synchronized (GST)		CVT
No. of speeds	F30 / R15 (F54 / R27 w/optional creep)		CVT
Shuttle Shift	Electro-hydraulic shuttle		
Main Clutch	Hydraulic multi-plate wet disc		

HYDRAULICS			
Hydraulic System	Closed center, load sensing (CCLS)		
Pump Capacity (gpm)	29		
3-Point Hitch	Telescopic lower link, Category 3, 3N		
Control System	Electronic draft control / Lower-link sensing		
Lift Capacity at 24" (lbs.)	11,797		
No. of Remote Valves	Max. 4 valves (mechanical valve)	Max. 5 valves (electronic valve)	
Rear PTO Speed (rpm)	540/540E/1,000/1,000E		
Front PTO Speed (rpm)	1,000		
Rear Axle Type	Flanged axle or bar axle	110" bar axle	

DIMENSIONS AND WEIGHT			
Overall Length (in.)	188"		
Overall Height (in.)	119"		
Overall Width (in.)	98.4" or 111"	111"	
Wheelbase (in.)	107"		
Weight (lbs.)	14,840	15,390	

LOADER	
Model	LM2605 Mechanical self-leveling loader, with Z-bar linkage

COMPATIBILITY		
Control Type	Mechanical Lever	Electrical Joy Stick
Max. Lift Height at Pivot Pin	167"	
Lift Capacity at 800 mm forward Forward (lbs.) (max. height)	5,765	
Standard Equipment	Third function valve, Single-lever hydraulic quick coupler, Accumulator (KSR: Kubota Shockless Ride)	

Narrow Models

M4N-071 | M5N-091PK | M5N-091 | M5N-111

The M4N/M5N are engineered specifically for work in vineyards, orchards, or anywhere else that might require a narrow tractor that features M Series power.

- › Narrow models (M4N-071/M5N-091/M5N-091PK/M5N-111) measure just 48" outside to outside at rear axle with standard tires
- › The 4WD M5N-091PK (Power Krawler), with its powerful engine and independently oscillating left and right rear tracks, ensures greater traction and sure-footed climbing in vineyards and other hilly terrain
- › Electro-hydraulic Shuttle Transmission is standard on all M Series models and makes shifting between forward and reverse a smooth and quick operation
- › Bevel Gear Front Wheel Drive with Bi-Speed Turn on the M Series narrow tractors delivers greater strength, maneuverability, and durability
- › Automatic 4WD braking on all M4N/M5N models from 2WD mode
- › The M4N and M5N have a V-3800 Tier 4 engine, increased alternator capacity, larger radiator, larger diameter cooling fan, and RPM memory for repetitious actions
- › To promote operator efficiency, all main controls are on the right-hand side of the operator while the steering wheel now has up to 25 degrees of tilt
- › Tracks offer an alternative to keep the narrow profile of the tractor while maintaining and improving the field performance. These benefits include increased traction and stability while minimizing ground compaction and damage to soil

Narrow Models

	M4N-071 HD12 / HDC12	M5N-091PK Power Krawler	M5N-091 HD12 (HD24) / HDC12 (HDC24)	M5N-111 HD12 (HD24) / HDC12 (HDC24)

Low-Profile¹ Models M5L-111 | M6L-111

The M5L/M6L combine low clearance versatility with full-size features and capabilities.

- › Designed specifically for fruit and nut orchard applications, the M Series low-profile tractors are versatile enough to be used in poultry operations or anywhere low clearance operation is required
- › The M5L and M6L are equipped with a Kubota turbocharged V3800 Tier IV Final engine, which has a Common Rail System (CRS), intercooler, and Exhaust Gas Recirculation (EGR), while a Diesel Particulate Filter (DPF) and a Selective Catalytic Reduction (SCR) system minimize emissions
- › An RPM Memory switch recalls preferred engine RPM with the touch of a button, and Constant RPM Management keeps the engine speed constant for stable operation
- › To promote operator efficiency and comfort, all controls are conveniently located on the right side, the floor pedals have been adjusted for better comfort, and the floor area has been increased along with ergonomic steps
- › Right-hand steel operator's guard helps keep low hanging branches from contacting the operator or inadvertently contacting critical controls
- › Kubota continues to use heavy-duty, wide steel fenders along with a stell sloping hood designed to reduce crop damage and gently deflect the branches of trees while protecting the operator and key controls
- › Lowered ROPS frames reduce the total height of the M5L to 66.3" and the M6L to a height of 89" with standard tires

Low-Profile¹ Models

	M5L-111	M6L-111
Engine Type (Kubota, liquid-cooled, diesel)	V3800-TIEF4, CRS, Direct Injection, 4-cylinder, turbocharged, w/intercooler	
Horsepower (gross)*	105.6	114.1

1 - Based on Kubota specifications; * 97/68/EC; ** OECD Code 2

High-Clearance Models

M6H-101

The M6H tractor is engineered with high clearance and more speeds to enhance performance in planting, spraying, and harvesting applications.

- › The M6H-101 high-clearance tractor is designed with best-in-class standard crop clearance — at 25.8" of ground clearance, the M6H will clear crops and ensure less damage, meaning more productivity for you
- › Slow ground speed is key in most high-clearance, specialty crop applications — with a standard, factory-installed creep speed, the M6H-101 has a minimum ground speed of 0.11 MPH at rated engine RPM
- › A 24-speed transmission gives the operator a wide variety of speed selections: from creep speed in the field, to high range on the road, the M6H's 3-range, 8-gear transmission will match the proper speed to the task being taken on
- › A left-hand, electro-hydraulic shuttle makes changing directions simple, with fingertip control
- › The M6H-101 comes with 2 standard rear remote valves, a self-canceling detent, and float detent — with 17.6 gpm of hydraulic flow, the M6H is ready to be productive, straight from the factory

High-Clearance Models

M6H-101

Engine Type (Kubota, liquid-cooled, diesel)	V3800-TIEF4, 4 cylinders in-line, Common Rail System, Direct Injection, DPF, DOC, SCR
Horsepower (gross)*	104.4
Horsepower (PTO)* at rated engine RPM	84

Disc Mowers

DM1017 | DM1022 | DM1024 | DM2028 | DM2032
DM3087 | DM4032 | DM5032 | DM5040

The tough and reliable Disc Mower Series is built with no compromises for maximum cutting performance.

- › Fully welded cutter bar with overlapping C channels creates a strong, and durable machine
- › High oil efficiency by using a low volume of oil ensures low working temperature for efficient cooling and lubrication of the entire cutter bar in all operating ranges
- › 3-bladed discs increases your cutting efficiency by 50%, producing a neat, cleanly cut crop
- › Even number of counter-rotating discs allows for improved overlap and a smooth, even crop flow
- › Specially machined gears with a rounded design and long teeth allow for quiet operation and efficient power transmission
- › DM Series disc mowers offer flexible suspension, well-suited for work on slopes and hilly conditions
- › DM5000 Series mowers offer larger working widths, while its trailed-type design is ideal for lower horsepower tractors

Trailed mower conditioners are a cut above the rest in new dimensions and pivot drawbar options.

- › DMC8000 and DMC8500 series range from 9' 2" to 13' 1"
- › High oil efficiency using a low volume of oil ensures low working temperature for efficient cooling and lubrication of the entire cutter bar in all operating ranges
- › Choose between a left-hand drawbar or center-pivot models
- › Long, curved gears run smoothly in oil and make for a low-noise cutter bar
- › Counter-rotating discs improve overlap and ensure an even flow of crop into the conditioning unit
- › Full width conditioning ensures an evenly conditioned crop as well as a consistent windrow
- › Cutterbar gear protection is done to Top Service Hubs that have a built in shear protection and are designed to quick and easy maintenance
- › With 3 blades and counter rotating disc, Kubota mowers have one blade in the crop at all times, making for cleaner cut and uses less HP as well increases blade life
- › Kubota's Patented SemiSwing tine conditioning system allows for more consistent conditioning action in a wide variety of crop conditions
- › Chevron roller conditioners with full width conditioning provide yet effective conditioning of fragile crops

Tedders

TE4052T | TE6576CD | TE6583T | TE8511T | TE8511C

Speed up your drying process with Kubota's versatile range of FarmLine and ProLine tedders.

- › Kubota tedders have working widths that range from 17' 1" to 36' 1"
- › Our symmetric Kubota Super-C tines allow for an efficient and even-spread crop flow that ensures the wet crop is placed on top of dry crop
- › Kubota Super-C tines are made from 0.39" shot-peened spring steel, and the spring coil diameter has a 20% larger diameter than conventional designs
- › FarmLine tedders are fitted with a 1 time per season maintenance gearbox and the ProLine is fitted with a maintenance free gearbox
- › Kubota's FarmLine tedders feature a pull-type design, making it the ideal tool for low-horsepower tractors
- › Kubota's ProLine tedders offer unique transport solutions—with hydraulically controlled transport wheels, these machines can quickly move from one field to another

Rotary Rakes

RA1035 | RA1042T | RA1047T | RA2071T EVO
RA2072 | RA2076 | RA2577 | RA2584

Durability is exemplified in Kubota rakes, with their maintenance-free gear boxes and the patented TerraLink flexibility system.

- › Kubota rakes are equipped to perform with up to 13 double tangential tine arms and up to 5 double tines per arm which ensures a uniform swath for faster drying and even feeding into the baler
- › Kubota's rakes feature patented TerraLink Quattro flexibility system, which allows the rake to follow a variety of ground contours
- › The FarmLine rakes feature 0.35" wire diameter tines
- › A maintenance-friendly FarmLine rotor head operates within a fully enclosed oil-filled housing
- › The ProLine rakes feature heavy-duty 0.39" wire diameter tines
- › All ProLine machines come standard with the renowned fully enclosed gearbox and its maintenance-free oil bath solution
- › With the ability to make either one or two windrows, the RA2071T EVO can make two smaller windrows in heavy crop conditions or one windrow in light crop conditions
- › Kubota's center delivery rake models feature rear-controlled steering, allowing the rake to make headland turns of up to 80 degrees

NEW Wheel Rakes

RA108CR | RA110CR | RA210CR | RA212CR

The Kubota RA Series wheel rakes are fast and productive for handling dry hay.

- › Transport is safe and easy on the road or through narrow gates and openings. Ranging in transport widths from 9'2" to 9'6"
- › Wing frame is adjustable for a wider range of windrow widths on our 200 Series
- › Adjustable for 12 different tractor drawbar heights to ensure proper working angles of the rake wheels
- › Independent Wing Cylinder Lockouts allow for single sided, left or right only raking in addition to providing safety and security when both sides are engaged in transport mode
- › Individual Rake Wheel Suspension is ideal for rough and uneven hay fields allowing each wheel to act independently and follow ground contour

Balers

BV4160 ECONO | BV4160 | BV4160SS | BV4180 | BV4180SS
BV4580 | BV5160 | BV5160R

Global expertise and proven performance for more than 135 years.

- › 4' wide and 5' 5" tall variable chamber round balers for more value in your bales
- › All Kubota Balers come equipped with Intelligent Density 3-D that gives you the ability to adjust the bale density in 3 areas to match any crop or crop condition
- › The BV4160 and BV4180 are available as silage special balers and the BV4580 comes standard silage capable
- › Kubota's BV5160 SC14 and BV5160RN Drop Floor enables the operator to clear blockages easily from the tractor cab
- › The Kubota BV5160 is equipped with the SuperCut-14 knife roller — an ideal solution for silage applications — featuring a chopping length of 2.75" that produces dense and airtight bales that reduce mixing time and are more digestible for nutrient absorption for livestock.
- › Kubota's BV4160 and BV4180 models are fitted with an efficient fork feeder intake system, which provides direct feed into the bale chamber, allowing for fast and efficient baling
- › Kubota's balers that are equipped with the front mounted PowerBind net wrap technology are efficient and feature simple loading, routing, and net that is applied tight on the bale time after time
- › The BV4580 round baler features a low-profile 86" wide pickup designed to deliver high crop volumes into the full-width rotary feeding system, producing high quality 5' x 6' bales
- › The Kubota BV5160R is equipped with a Rotor Intake - ideale for silage applications where chopping is not needed or working in high volume crops for silage or dry hay.

Wrappers

WR1100 | WR1400 | WR1600C

With remote-controlled, three-point mounted turntable wrappers, the perfectly wrapped bale is right at hand.

- › The entire wrapping process of the Kubota WR1100 can be controlled via an optional handheld remote from the loading tractor
- › The Kubota WR1100 is ideal for “wrap and stack” operations, as it can be mounted on the rear or front hydraulics of the tractor, or used as a static machine with an external power pack unit
- › For smaller tractors, the extendable wheel arm of the Kubota WR1400 allows bales up to 2650 lbs. to be loaded without any counterweights on the machine
- › Turntable with two driven rollers is designed for high bale stability and smooth, even rotation
- › The low design of the Kubota WR1400 ensures fast and gentle unloading of the bale with no need for an extra fall damper
- › The turntable may be tilted until it nearly touches the ground, reducing chance of film damage
- › The Kubota WR1600C is a high capacity wrapper, capable of wrapping one bale while carrying another one. And it features 2 Film Applicators this cuts your wrapping time in half.

VS Series

VS220 | VS330 | VS400VITI | VS500VITI
 VS400 | VS500 | VS600 | VS800 | VS1000

The VS Series offers a unique pendulum spreader range for maximum accuracy, spreading quality, and ease of operation.

- › Pendulum movement of the spout ensures the application rate is always identical on both sides for excellent overlap
- › Available with manual control, hydraulic remote control from the cabin, or electronic control from the cab
- › Minimum wind influence on the spreading pattern ensures the tractor does not get covered with fertilizer
- › Easy setting of the application rate with the scale allows continuous adjustment in pounds per acre, minimizing the risk of spreading errors
- › Low filling height makes refilling fertilizer easy, as the hopper can be moved under a tipping trailer or silo, or filled by hand
- › Agitator ensures an even material feed to the spreading unit, so there is no risk of crushing the fertilizer

Loaders/Landscapers

B26 | L47 | M62

Our unique line of 4WD utility tractors is versatile and rugged enough to landscape or load up the farm, the front yard, or the ground floor of any construction site.

- › E-TVCS diesel engines provide a total balance of high torque, low noise, low vibration, low emissions, and quick starts on cold mornings
- › Tractors are available as either tractor/loaders (TL) or tractor/loader/backhoes (TLB)
- › Backhoes are quick-attach, exposing a Cat. I or Cat. II (depending on model) hydraulic, independent, 3-point hitch
- › Powered by reliable Kubota diesel engines
- › Side-positioned loader controls, engine controls, and display provide operator ease and information at a glance whether using the loader or the backhoe
- › Sloped loader arms match the slanted hood for improved visibility in tight working areas
- › Quick couplers combine with auxiliary hydraulics for quick attachment changes and a variety of tools for both the loader and backhoe

SCL1000

Compact in Size, packed with performance and new features, Kubota's new Stand-on Compact Loader conquers the toughest of tasks yet is nimble enough to get in tight spaces.

- › 24.8 HP Turbo-charged Kubota engine provides quiet operation, high altitude performance and requires no DPF
- › Vertical lift loader arms reach higher and further than the competition with a hinge pin height of 84.7" and a reach of 26" (at 45° dump angle).
- › 1000 lbs. ROC combined with 15 gpm auxiliary hydraulic flow make for a powerful and productive compact utility loader.
- › 4.3" Color LCD monitor includes Keyless start with passcode protection and easy to read consolidated machine monitoring with service reminders. A convenient 12 Volt charging port is also standard.
- › The patent pending T-drive handle provides intuitive and ergonomic steering. Hydraulic pilot-operated loader and drive control valves offer precise and responsive control of the machine
- › Right hand joystick controls loader arm and bucket movement. Auxiliary hydraulics are easily operated without removing your hand from the loader joystick. Continuous flow in either direction is as simple as pushing a button
- › Easy to access centralized filters and everyday maintenance items. Dash indicator light alerts when the air filter needs cleaned, and service information is readily available at the touch of a button.
- › Heavy-duty cast CII coupler and protective cover for bucket cylinder fittings. CII coupler is standard. Optional welded 2-lever style coupler
- › Works in zero clearance yards with low impact wide track design (4.0 psi) minimizing damage to grass or landscaping. 4.9 mph Best in class travel speed
- › Auxiliary hydraulic lines are routed inside the loader arm for optimal protection. Case drain is standard. Auxiliary hydraulic couplers are pressure

SCL1000

ENGINE

Engine Type	Water cooled 4 cycle diesel engine with 3 cylinder, turbo, EPA Tier 4
Model Name	KUBOTA D902-T
Total Displacement	54.8 cu.in. (898 cm ³)
Engine Power - SAE J1995 Gross	24.8 HP (18.5 kW/rpm)
Rated Speed	2,800 rpm
Low Idling Speed	1,250 rpm

DIMENSIONS

Overall Length - Transport (w/Std Bucket Parallel to Ground)	107.7" (2.74 m)
Overall Length (w/o Bucket)	84.9" (2.16 m)
Overall Height	55.7" (1.41 m)
Overall Width w/Std Bucket	36" (91.44 cm)
Operating Weight (w/o Operator) lbs	3,035 (1,376 kg)
Rated Operating Capacity (35%)	1,000 lb (453 kg) ROC
Tipping Load	2,857 lbs (1,296 kg)
Wheelbase	40.5" (1.03 m)
Hinge Pin Height at Max. Lift	84.7" (2.15 m)
Reach at Max. Lift and 45° Dump	26" (66 cm)
Track Width	9.8" (24.9 cm)
Ground Clearance	7.4" (18.8 cm)
Angle of Departure	25.2°

PERFORMANCE

Attachment Mounting System	CII (Common Industry Interface) or 2 Lever Quick-Attach
Travel Speed (Fwd/Rev)	4.9 mph (7.9 km/h)
Ground Pressure (with Operator)	4.0 psi, 28.0 kPa (0.28 kgf/cm ²)
Battery Capacity	12V, RC 80, 540 CCA
Auxiliary Hydraulic Flow	15 gal/min (56.7812 L/min)
Auxiliary Hydraulic Pressure	2,800 psi (19.3 mPa) (196.8 kgf/cm ²)

SERVICE & FILL CAPACITIES

Fuel Tank Capacity	7.75 gal (29.3 L)
Hydraulic System	6 gal (22.7 L)

SSV Compact Skid Steer Loaders

SSV65 | SSV75

Greater power now comes in a smaller package. Our new SSV skid steer loader is easier to transport from site to site and easier to maneuver in tight spaces.

- › Increase operator comfort in our roomy fatigue- and stress-reducing cabin, encouraging all-day alertness
- › The sliding front entry door can be opened or closed regardless of loader position
- › Dust-resistant, pressurized cabin has an optimized air conditioning and climate control system for all-year-round operator comfort
- › Move more material faster in applications such as agriculture, construction, and landscaping
- › An optional multi-function lever allows fingertip control of all major vehicle and implement operations
- › The closed cab is radio-ready with speakers, wiring, and antenna standard equipment
- › Flip a switch on the hydraulic quick coupler to hook up or remove attachments without leaving your seat
- › Discover the increased lifting capacity, higher lift heights, and overall higher productivity of the SSV Series

SVL Compact Track Loaders

SVL65-2 | SVL75-2 | **NEW MODEL** SVL97-2

The SVL Series offers best-in-class bucket breakout force and lifting capacity for groundbreaking new levels of performance and productivity.

- › Powered by 4-cylinder Kubota CRS-TE4 turbocharged engines with 68.3, 74.3 and 96.4 horsepower, these best-in-class engines are equipped with common rail fuel injection and diesel particulate filters to match outstanding performance with increased fuel economy and greatly reduced exhaust emissions—the SVL97-2 is equipped with a selective catalytic reduction after-treatment
- › Vertical lift design and low center of gravity deliver exceptional stability
- › Standard-equipped 2-speed travel and high ground clearance ensure excellent travel performance on difficult terrains
- › Comfortable and spacious cab area features a luxurious, adjustable full-suspension seat and plenty of legroom
- › Angled track frame cover prevents soil from accumulating during operation
- › Easy maintenance features include a large engine compartment door to access all components for daily routine checks
- › The variable high flow setting of the SVL97-2 and the SVL65-2 & SVL75-2's optional high flow system takes performance and productivity to new levels.

New SVL97-2

- › KubotaNOW Telematics (Standard)
- › Rearview Camera (Standard)
- › LED Lights (Optional)

Excavators

K008-3T4 | KX018-4 | KX71-3ST4 | KX033-4

Kubota's compact excavators combine maneuverability, power, and reliability with economy to help you haul away more pay dirt on every job.

- › Low sound level increases operator comfort and allows more work in residential areas
- › Unique compact size increases productivity in confined areas
- › Superior stability with long tumbler distance and wide variable track width (KX018-4) enables you to safely perform jobs using a host of Kubota attachments
- › Variable-width track frame can be hydraulically retracted with the switch of a lever to fit through most doorways (K008-3T4) and gates (KX018-4)
- › One of the largest cabs in its class, the KX018-4 features ample legroom, adjustable seating, and a wide door to bring comfort to tough work
- › New digital display allows easy access and operation (KX018-4)
- › Two-pattern selection system lets operator choose ISO or SAE operating pattern
- › Easy access makes engine maintenance simple
- › With the stability and lifting capacity of a much bigger machine, the 3-ton KX033-4 offers a level of performance to efficiently handle a wide variety of tough excavating jobs
- › With a larger entrance, more legroom, and enhanced ergonomics that simplify routine operations, the KX033-4's luxurious cabin redefines operator efficiency

Excavators

KX040-4 | **NEW MODEL** KX057-5 | KX080-4S2

Get down to bedrock with these powerhouse excavators. The KX series has earned high market acclaim for outstanding utility and exceptional, efficient operation.

- › Remarkable breakout force of 14,660 lbs. ensures high productivity in the toughest of applications (KX080-4)
- › Advanced Load-Sensing Hydraulic System provides optimum oil flow to each cylinder, making operation under any load easier and smoother
- › Kubota's original ECO PLUS® prioritizes fuel economy and helps support the environment (KX040-4)
- › Hydraulic 6-in-1 blade for KX040-4 angles 25 degrees and tilts 10 degrees to make leveling and backfilling work incredibly easy
- › Oil-flow settings are adjusted and stored via a new digital panel for quick retrieval from job to job
- › Superior cabin design features air conditioner, two-pattern selection system, 2-speed travel switch, deluxe suspension seat, and retractable seat belt
- › Triple Open Covers, ground-level access, and angle track frame give you easy, hassle-free maintenance

NEW to KX057-5 Excavators

- › NEW 7" LCD Color Display
- › LED Lights (Standard)
- › Keyless Start (Optional)
- › Rearview Camera (Optional)
- › Dual adjustable seat and console
- › Improved AC system
- › Quieter cab

Excavators

U17 | U25 | U27-4 | U35-4 | All New Model U48-5 | U55-5 New Model

The U Series excavators offer performance, durability, convenience, and comfort to help you tackle tougher jobs in even tighter spaces.

- › Two-pattern selection system lets operator choose ISO or SAE operating pattern
 - › Zero and tight tail swing offer excellent balance, stability, and faster operations in confined areas
 - › Hydraulic variable-width track frame retracts to fit through gates, expands for stable operation (U17)
 - › Kubota diesel engine improves fuel efficiency, increases output and torque rise, and decreases noise and vibration
 - › Unique hydraulic system and large-capacity variable displacement pumps deliver the best performance-matched boom, arm, and bucket movements in the industry
 - › The new U27-4 has a best-in-class dig depth of 9' 5" and provides one of the largest operator stations in the industry with a tight tail swing design
 - › Optional cabs offer spacious operator area with air conditioning, interior light, and windshield wiper/washer for comfortable and efficient all-weather operation ((U35-4, U48-5, and U55-5)
 - › Digital display enhances productivity and makes operation easier
- NEW to U48-5 and U55-5:**
- › NEW 7" LCD Color Display
 - › LED Lights (Standard)
 - › Keyless Start (Optional)
 - › Rearview Camera (Optional)

Wheel Loaders

R430 | New R540 and R640 Models

Our highly versatile R Series wheel loaders are equipped with state-of-the-art features to offer unrivaled visibility, unrelenting power, and unmatched productivity for many worry-free years to come.

- › 4-wheel drive, 100% on-demand differential lock, and rear frame oscillation provide excellent traction and stability
- › The ultra-comfortable, enclosed cab ensures year-round comfort with great visibility, a suspension seat, and hanging-type foot pedals
- › Easy access makes engine maintenance simple
- › Equipped with Kubota's own powerful Tier 4 Final diesel engine
- › Joystick mounted FnR switch allows on-the-go directional changes without clutching or braking (Only on the R540 and R640 models)
- › Make fast, safe, and easy attachment changes with the Quick Coupler

New R40 Wheel Loader

- › Improved visibility - larger front window; full size right window (door size); new delta shaped wheel loader arms
- › Operator comfort - moved console of switches to the right side of the cab increasing foot and leg space; R540 multi function control lever is now standard
- › Performance - added operating weight increases stability and lift performance

The New RTV520

Mighty Capability. Nimble Package.

- › Powerful Kubota Liquid-Cooled EFI Engine. A more powerful 2-cylinder engine provides increased horsepower, with quiet and reliable muscle for any job. Kubota built, the durable engine is liquid-cooled to improve efficiency and ensure consistent performance throughout the day. Electronic Fuel Injection (EFI) makes starting the engine in cold-weather easier, and provides instant power with greater throttle control
- › Capable Towing Capacity. The reliable engine delivers capable towing capacity, made simple with a standard trailer hitch for greater versatility and an ability to attach trailers or pull-behind equipment. For those who refuse to compromise, the mighty RTV520 can tackle even the toughest jobs with its 1,168 lbs towing capacity
- › Comfortable Seat Design. The stylish matte-black and contoured seats have been redesigned with a 30% softer padding material, to provide better comfort during long rides
- › Quiet Engine. A new, water-cooled 2-cylinder engine produces less noise than both the competition and previous models, making for a quiet and enjoyable ride
- › Narrow Stance. The RTV520's compact dimensions let you nimbly maneuver into and out of tight spaces with ease
- › Tight Turning Radius. With a tight turning diameter of just 21.7 ft., the RTV520 can work in narrow sites where bigger utility vehicles can't go
- › Metal Cargo Bed. Unlike the plastic cargo beds found on competing utility vehicles, the RTV520 features a durable metal cargo bed that can withstand hard use
- › New Radiator with Screen. The RTV520's radiator features a screen that prevents mud and grass from sticking to the radiator. A window provide superior accessibility for cleaning and maintenance

RTV-XG850 - SIDEKICK

The gas-powered, large chassis RTV-XG850 Sidekick is where “Durability Meets Speed”

- › The Sidekick is built upon the robust, heavy-duty RTV-X platform to provide proven durability and performance
- › Electronic Fuel Injection (EFI) and a powerful 48 HP gasoline, water-cooled engine provide plenty of torque, astonishingly quick acceleration, and high transport speed (up to 40 mph)
- › Idle Speed Control (ISC) and highland correction ensure stable power for any situation
- › The Continuously Variable Transmission with centrifugal clutch (CVT-Plus) provides faster acceleration, smoother operation, and controlled braking with engine-assisted deceleration
- › The cogged belt on the CVT-Plus is kept tight for minimal slippage and excellent durability, fully shielded to keep out dust and water, and cooled with a large fan for even greater longevity
- › Light at low speeds and firm at high speeds, the Sidekick's speed-sensitive 45A Electronic Power Steering (EPS) is standard on all models and offers exceptional steering control, improving not only handling, but also stability
- › EPS ensures outstanding performance even when the cabin/cargo box is heavily loaded or the snow blade is attached—operating at higher speeds, EPS safeguards against over-steering, increasing stability and control
- › Even when fully loaded, the Sidekick won't bottom out—front and rear adjustable independent suspension delivers a smooth ride with plenty of clearance
- › The aggressive style is offered in four distinct colors, including the Special Edition Black Model, which comes with alloy wheels, spray-on bed liner, and visually distinct design and graphics to signify being “ready for anything”

RTV-X900

Whether you're hauling half a ton of cargo on the job site or feeding livestock out in the pastures, the smooth-riding, hard-charging RTV-X900 gets it done.

- › Our RTV-X900 offers a 3-cylinder, liquid-cooled, 21.6-horsepower* Kubota diesel engine and has a well-earned reputation for dependable performance even in the harshest terrains
- › 1,300 lbs. towing capacity with standard front and rear two-inch hitch receivers at the front and back
- › Up to 15.2 cubic feet of cargo — heavy-duty steel cargo box can carry up to a half-ton (1,102 lbs.) of tools, firewood, gear, supplies, and whatever you need to haul from here to there and back again
- › 2-speed in-line shift allows you to shift less often and maintain better control
- › Front and rear height-adjustable independent suspension ensures an exceptional ride, and Extra Duty IRS (Independent Rear Suspension) sets a new standard for durability
- › Kubota's advanced VHT-X (Variable Hydraulic Transmission) offers a wide torque band, advanced designed HST motor, and large oil coolers to boost durability and increase performance
- › VHT-X transmission's Dynamic Braking provides additional braking power and greater driving control, making you feel more secure, especially when traveling down long inclines

RTV-X1140

From industry-leading cargo capacity to generous seating for up to four adults, this best-selling utility workhorse has been improved top to bottom to give you the best possible performance and comfort across a wide range of jobs.

- › K-vertible Cargo Transformation System — two- and four-passenger configuration in less than a minute
- › Powerful Kubota 3-cylinder, liquid-cooled, 4-cycle, 24.8-horsepower* diesel engine
- › Exclusive Kubota 2-range VHT-X (Variable Hydraulic Transmission)
- › Top speed of 25 mph and 1,300 lbs. towing capacity
- › Quick, responsive hydrostatic power steering
- › Dealer-installed full cab enclosure available
- › Newly designed OSHA+SAE Rollover Protection System for both front and back row seats provides cleaner look and easier cargo loading
- › 20% larger, clog-resistant radiator for simpler maintenance and improved performance
- › Wet disc brakes for smooth, consistent braking and excellent durability
- › Independent front and independent rear suspensions and a long wheelbase deliver a smooth, stable ride
- › Standard 19.1 cu. ft./9.9 cu. ft. (two-seat/four-seat configurations) cargo bed with hydraulic lift capability in either configuration (up to 1,102 lbs. capacity)

T Series

T2090BR | T2290KW | T2290KWT

Easy to operate, fun to drive, the ALL improved Kubota T Series is durable, and packed with premium features to keep you mowing efficiently and comfortably.

- › Equipped with high power 20- and 21.5-horsepower gasoline engines
- › All models are equipped with hydrostatic transmissions (HST) for precise control
- › High-back seat (with suspension on T2290) provides extra cushioning and support, with dual armrests (optional on T2090) for comfort
- › The thicker and higher-positioned steering wheel reduces fatigue and enhances operator comfort and control
- › Convenient 12V power outlet lets you charge your phone or power accessories like an air compressor
- › Short 14" turning radius allows easy maneuvering around difficult objects
- › Mower height adjusts from 1" to 4" right from the operator's seat with simple dial-cam setting
- › Upgraded fabricated mower deck, along with new tubular-frame structure, improves strength, rigidity, and durability
- › Ductile cast iron front axle is strong and durable, handling all sorts of bumps & shocks
- › Compatible with a full line of performance-matched, quick-attach front implements

GR Series

GR2020G | GR2120

With Kubota's revolutionary Glide Steer, all-wheel drive, plus tight turning, even difficult mowing conditions are now effortless.

- › Your choice of a 3-cylinder, 17-horsepower Kubota diesel engine or a 2-cylinder, 20-horsepower Kohler gasoline engine
- › Glide Steer provides excellent turning maneuverability with front wheels that turn up to 70 degrees while preventing turf damage
- › All-Wheel Drive (AWD) characteristics provide outstanding traction needed for mowing on rolling terrain
- › Versatile HST transmission is controlled by a single foot pedal for a smooth and comfortable ride
- › Shaft-driven mower, transmission, and PTO offer smooth, virtually trouble-free operations
- › Cruise control, full-flat operator platform and a comfortable high-back, adjustable suspension seat increase operator comfort
- › 5" deep, 48" and 54" contoured design mower decks produce professional results every time
- › Equipped with Kubota's Reverse Awareness System (KRA) for additional safety when mowing in reverse
- › Variety of implements available for year-round versatility, including a grass catcher, two-stage snowblower, front blade, and mulching kit

NEW Z200 Series

New Z200 Series

Z231KW | Z231BR | Z231KH | Z251BR | Z251KH

The ultimate residential zero-turn mower — combining style, comfort, and performance.

- › Zero-turn steering for superior machine control and precision mowing
- › A 10-gauge steel, welded mower deck provides professional-level cutting performance for homeowners
- › Storage boxes on either side give you a place for tools, lunch, and anything else
- › Cup holders keep your drinks at hand
- › LED headlights allow you to continue mowing in lowlight conditions and come standard on the KH models and is an option on the KW and BR models
- › Wide-tread tires give you better traction and weight distribution to help protect your lawn
- › The K-Lift (mechanical one-push deck-lift pedal) makes adjusting the cutting height simple
- › Z231KW comes with a 42-inch deck to maneuver in and out of intricate spaces smoothly and with ease
- › KH-models are equipped with full seat suspension
- › The Z200 series is covered by a comprehensive four-year, 300-hour factory warranty

Z400 Series

NEW MODELS Z412KW | Z422KW | Z422KWT
Z411KW | Z421KW | Z421KWT

Designed for the prosumer who seeks professional performance and durability, as well as comfort and convenience.

NEW Z412 and Z422 Features

- › Premium adjustable suspension seat offers thick cushion with high back and a 4" adjustable seat slide that improves comfort and reduces fatigue
- › All deck sizes have 13"x6.5"-6" Front pneumatic tires
- › Powered by the highly acclaimed Kawasaki FS-Series Engines, the Z400 provides the torque you need to power through tall grass and rugged environments
- › Light and smooth steering lever operation with dampers that have three adjustment positions
- › The Z400 is driven by the new Hydro-Gear ZT-3600 transmission, a Kubota exclusive, the most dependable and durable in the product class
- › Simple operation of the mower lift pedal efficiently raises the mower deck
- › Maximum forward travel speed of 10 mph contributes to quickly completing the job at hand
- › The operation panel is conveniently and integrally located on the right fender and features a simple, easy-to-operate design
- › With a generous fuel tank capacity of 6.8 U.S. gallons (25.7 L), the Z400 is able to continue operations for up to six hours
- › Convenient 12V power outlet lets you charge your phone or power accessories like an air compressor
- › The seat features a thick cushion construction and slides a full 6" forward and back, allowing even prolonged operations to be undertaken in maximum comfort (Z411 & Z421)

Z700 Series

Z751KWi | Z781KWi | Z781KWTi
 Z724XKW | Z726XKW
 Z723KH | Z724KH | Z725KH

Designed for the commercial landscape professional, the Z700 Series offers best in class performance, productivity, comfort and the durability that Kubota is known for.

Z700EFI Model Features

- › Kawasaki FX EFI engines feature a fully integrated electronic governor (E-GOV) and a cutting edge ECU control unit. They deliver outstanding performance without power loss
- › EFI Dial Throttle control, delivers infinite effortless engine control
- › LCD Engine Meter, provides all the information you need to keep your Z700 EFI unit running at optimum efficiency
- › 24" Low Profile tires improve hill side stability
- › 12V Power outlet can charge or power many devices

All Model Features

- › Premium adjustable suspension seat offers a thick cushion with a 19.6" high back and a 6" adjustable seat slide that allows you to find the ideal seating position for maximum comfort
- › New Deck Step indicator provides easier access
- › New Water and Dust Proof safety switches eliminate those failures
- › 6"-deep mower deck and anti-scalp rollers provide fast, clean, superior grass-cutting performance
- › With an 11.2 mph maximum speed, it's Kubota's fastest zero-turn mower
- › Dual Parker® transmission with an integrated pump and motor designed for increased efficiency and simplified maintenance

ZG200 Series

ZG222 | ZG227

The professional-quality performance, exceptional comfort, and outstanding reliability of the ZG200 Series make it the ultimate mowing machine for both professionals and homeowners.

- › Powered by durable 21.1- and 26-horsepower air-cooled Kubota gasoline engines
- › Zero-turn steering for superior navigation
- › Reliable, ultra-smooth, hydrostatic transmission offers superior durability and performance
- › Heavy-duty Pro Commercial Mower Deck features a unique baffling system that improves airflow to discharge grass clippings and an anti-overflow system for professional-looking results
- › Optional mulching system provides a beautiful finish, even in thick grass
- › Foot-operated hydraulic deck-lift system for easy adjustment
- › Spacious platform, comfortable and supportive seating, and an easy-to-reach cup holder for operator comfort
- › Operator-friendly instrument panel puts everything within close reach
- › Convenient mower, HST, and engine access for hassle-free maintenance
- › Foldable ROPS standard

ZG300 Series

ZG327P | ZG327RP

Built for power, durability, and performance, the ZG300 Series features deep mower decks for exceptional cutting performance.

- › ZG300 mowers are available with durable Kubota deck air-cooled gasoline engines with 26 gross horsepower
- › Durable HST transmission optimizes performance to achieve maximum results
- › Pro commercial deck is a superior deep mower deck that ensures excellent cutting performance
- › Anti-scalp swivel rollers can rotate a full 360 degrees preventing unsightly turf damage
- › Large-capacity dual fuel tanks on ZG300 Series models
- › Foot-controlled hydraulic deck lift and PTO wet disc clutch make tough jobs easy
- › Unique maintenance lift system allows easy mower access (optional on ZG300 models)
- › Radiator screen is integrated into hood for better sealing performance and reduced likelihood of grass clippings finding their way into the radiator (diesel models)
- › Tie-down for securing onto flatbed truck or trailer for convenient transportation
- › “Flat-free” front caster tires are standard with ZG300 and enable mowing operation without worrisome flat-tire downtime

ZD1000 Series | ZD1011 | ZD1021

Top to bottom, front to back, and inside and out, Kubota's ZD Series of zero-turn mowers is engineered for quality. Versatile and reliable, the ZD1000 compact mower can handle jobs big and small.

- › The Kubota ProDeck with ACS (Aerodynamic Cutting System™) has smoother airflow and more powerful rotation to ensure more efficient cutting, meaning you can get the job done better and faster
- › Redesigned clean-cut blades have a new shape that improves overall load balance and provides a longer service life
- › Discharge chute has been redesigned with a flexible yet strong material, ensuring a smoother and more uniform discharge of clippings
- › Improved fuel efficiency—up to 22% better
- › Low center of gravity helps improve the weight/balance and provides stability on slopes and uneven ground
- › A two-pedal hydraulic deck-lift system keeps you mowing in spite of obstacles by letting you easily raise and lower the deck with your foot

Mower Deck Type	Kubota ProDeck with ACS		
Mower Lift System	Hydraulic		
Deck Depth	6"		
Cutting Height	1-5"		
Cutting Width	48"	54"	60"
Blade Tip Speed (fpm) (max.)	17100		18200

ADDITIONAL IMPLEMENTS AND ACCESSORIES

	ZD1011-48 / ZD1011-54	ZD1021-60
"Catch All" 2-Bag Style Grass Catcher	Optional	
Hitch Kit	Optional	
Operator-Controlled Discharge Chute	Optional	
Work Light Kit	Optional	
Canopy Sunshade	Optional	

* SAE J1995

ZD1200 Series

ZD1211 | ZD1211R | ZD1211L | ZD1211RL

With a bigger engine and wider mower deck, the ZD1200 gets the job done with speed and efficiency. These premium mowers incorporate the best of Kubota's advanced technology in every detail and ensure both superior mowing performance and supreme operator comfort.

- › The biggest LCD meter in its class shows all of the key indicators you need to maximize cutting performance and operability
- › For faster operation and better ergonomics, the mower deck controls are on the right side within easy reach of your hand, letting you quickly and easily adjust the cutting height
- › Low-profile tires at the rear improve the stability and traction on turns
- › Redesigned HST levers not only provide more legroom but more settings to choose from, ensuring smoother operation, better zero-turn maneuverability, and greater job efficiency
- › A more comfortable, fully padded and reclining bucket seat means less operator fatigue and greater productivity — with dual adjustable armrests, higher backrest, and lumbar support
- › The optional “Catch All” hopper-style grass catcher holds 11.4 bushels of clippings and can be emptied while the operator remains seated

ZD1200 Series

	ZD1211-60 / ZD1211R-60R	ZD1211L-72 / ZD1211RL-72R
Engine Type	Kubota liquid-cooled, diesel, 3-cylinder	
Engine Model	Kubota D1105-E4-ZD-2	
Horsepower (gross)*	24.8	
Displacement (cu. cm.)	1,123	
Transmission	2-HST w/gear reduction	
Fuel Capacity (gal.)	13.0	
Speed (mph) (forward/reverse)	0–10.6 / 0–5.3	
Overall Length	89"	93.7"
Overall Width (w/mower chute)	73.8" / 63"	85.8" / 75.2"
Overall Height (w/ROPS upright)	78.7"	
Front Tires	15 x 6.5-8 smooth semi-pneumatic	
Rear Tires	26 x 12.0-16 low-profile tire	
Brakes	Wet multi-disks, foot applied, released	
Weight (lbs.) (w/mower)	1,687 / 1,720	1,764 / 1,786

ZD1500 Series

ZD1511RL | ZD1511LF | ZD1511RFL

The ZD1511 stakes its place at the top of the line of Kubota's industry-leading diesel zero-turn mowers with the electronically controlled Kubota diesel engine and the Aerodynamic Cutting System to significantly enhance cutting performance.

- › The flexible discharge chute ensures superior scattering of clippings
- › Wider, thicker, and more durable blades contribute to optimized air flow
- › Compared to previous model ZD331, the ZD1511 features an enlarged flywheel that is responsible for an increase from 29.1 hp (21.7 kW) to 30.8 hp (23 kW)
- › The hydraulic transmission, a unique Kubota feature, ideally complements the V1505 Kubota diesel engine by transmitting engine power without loss, which contributes to a quick and smooth response
- › The 3.5" (88.9 mm) wide LCD Panel is the trade's largest and most comprehensive for models in this class
- › Two-pedal type hydraulic lift system enables the operator to easily and efficiently raise the mower deck when an obstacle is encountered
- › Operators never need to remove hands from levers to engage the parking brake through use of the conveniently located parking brake pedal
- › Two-pin type maintenance lift makes it simple and easy to efficiently lift the front portion of the mower deck to quickly deal with any situation as it is encountered—including needed maintenance

ZD1500 Series

	ZD1511RL-60R	ZD1511LF-72 / ZD1511RLF-72R

F Series

F2690E | F2690 | F3990

The F Series sets a new standard for professional front-mount mowers with cleaner emissions and greater power, precision, and efficiency.

- › Kubota diesel engines provide faster, more efficient job performance with high-torque rise that allows you to power through tall or wet grass
- › The F3990 offers the highest-ever horsepower among all Kubota front-mount mowers
- › 6" deep, side-discharge deck design lets tall grass stand up so it can be cut more efficiently with a cleaner appearance
- › Large operator's platform, deluxe high-back seat with four separate adjustments and operator levers, for maximum driving comfort and convenience
- › Hydrostatic power steering reduces operator fatigue and makes it easier to mow around trees and other obstacles
- › EPA compliance with Tier 4 emissions regulations, enhanced combustion efficiency, low vibration and noise levels, and reduced fuel costs

F Series

	F2690E	F2690	F3990

KUBOTA PARTS

Kubota Tractor Corporation (KTC) Parts operations provide customer parts support, parts, and manuals through Kubota's national dealer network. We support our dealers with four large warehouses located strategically throughout the United States and two super warehouses in Japan.

KTC Parts offers a full line of O.E.M. service and maintenance parts designed and engineered to original factory specifications to keep your Kubota equipment operating at peak performance.

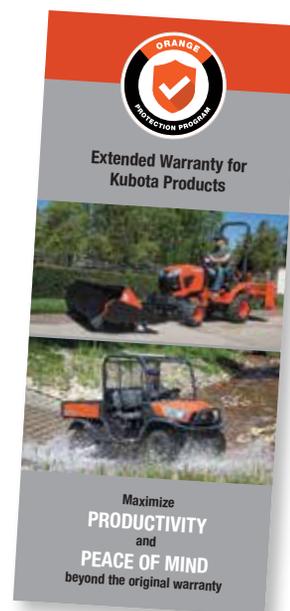

KUBOTA ORANGE PROTECTION PROGRAM®

The Kubota Orange Protection Program gives you the opportunity to extend your coverage, without interruption, by one or two years. You can purchase your warranty extension through your Kubota dealer any time before the expiration of the regular Kubota Limited Warranty.¹

BENEFITS AT A GLANCE

- › Extends Basic Limited Warranty Coverage
- › Protects your investment
- › Provides peace of mind
- › Reliability of genuine Kubota parts
- › Extends both the Basic and applicable Power Train coverage
- › Administered by Kubota Tractor Corporation
- › Sold and serviced by your Authorized Kubota Dealer
- › Financing available, if purchased at the same time as your tractor
- › No deductibles
- › Fully transferable – (Coverage stays with the machine)

FOR MORE INFORMATION, VISIT YOUR LOCAL KUBOTA DEALER OR CALL 888-398-9782

KUBOTA CREDIT CORPORATION, U.S.A.

Since 1982, Kubota has extended a wide range of financing alternatives to customers through Kubota Credit Corporations, U.S.A. (KCC). KCC offers competitive interest rates, flexible down payments, monthly and seasonal payment terms, and a Kubota-sponsored property damage insurance program. Kubota dealers can tailor a variety of finance programs² to meet the specific requirements of their customers.

FOR MORE INFORMATION, VISIT YOUR LOCAL KUBOTA DEALER OR WWW.KUBOTACREDITUSA.COM

¹ - Orange Protection is available in Florida for Commercial Customers only.

² - Subject to credit approval through Kubota Credit Corporation, U.S.A.

KTAC INSURANCE AGENCY

Created specifically for Kubota owners, KTAC Insurance is a Kubota-endorsed property damage insurance program providing “all risk” protection.

BENEFITS AT A GLANCE

- › Coverage against flood, wind, infestation, upset and collision, falling objects, theft, fire, vandalism, and more
- › In-transit and off-property protection
- › Low \$250 deductible
- › Convenient payment options
- › Transportation reimbursement

KCC customers also receive original sales price protection (including taxes and fees)* for the first 60 months of the finance agreement.

FOR MORE INFORMATION, CONTACT A KTAC REPRESENTATIVE AT 800-348-5802 OR VISIT WWW.KTACINSURANCEAGENCY.COM.

*This is a summary of the Kubota-Endorsed Property Damage Insurance Program. This information is descriptive only and is not intended to be a solicitation or an offer to sell any insurance product or service, nor is the information a complete description of all of the terms, conditions and exclusions applicable. Actual coverage is subject to the language of the policy issued. This policy is underwritten by Ohio Indemnity Company.

KUBOTA LEASING

In this credit-tight economy, leasing is critical to getting the Kubota equipment your business needs to grow. With the new Kubota Leasing program, commercial customers have access to flexible leasing that makes the full Kubota product line more affordable.

PROGRAM HIGHLIGHTS INCLUDE:

- › Affordable monthly payments
- › Fast, easy application process
- › Application only required up to \$150,000
- › Same-day credit decisions with complete information
 - › Transactions starting at \$3,000 and up
 - › 24-, 36-, 48- or 60-month terms
- › Flexible structures to match your cash flow and budget

Kubota Tractor Corporation reserves the right to change the stated specifications without notice. This brochure is for descriptive purposes only and reasonable efforts were used to set forth the contained information; some items shown may be optional and some products shown may not be available at all dealerships. Kubota disclaims all representations and warranties, express or implied, or any liability from the use of this brochure. For complete warranty, safety and product information, consult your local Kubota dealer and the operator's manual. Power (HP/KW) and other specifications are based on various standards or recommended practices. For your safety, Kubota strongly recommends the use of a Rollover Protective Structure (ROPS) and seat belt in almost all applications. This brochure is intended for the United States and US territories only. For information regarding Kubota products or services outside these areas, see Kubota Corporation's global web site. Kubota does not provide parts, warranty or service for any Product which is re-sold or retailed in any country other than the country for which the Product(s) were designed or manufactured.
