## NEW B50 SERIES

The new B2650/B3350 tractors take compact tractor capability to the next level with user-friendly operation and outstanding productivity. Equipped with high quality Kubota engines and transmissions, they deliver the extra durability and reliability you demand for a wide range of jobs. Whether you're mowing, landscaping or doing light utility work, the new B50 Series is the best choice for durability, versatility and comfort.

### CLEANER EMISSION KUBOTA DIESEL ENGINES

The B50 series diesel engines are built for greater power with cleaner emissions. The B3350's liquid-cooled E-TVCS (Emission-Three Vortex Combustion System) engine delivers increased power and high torque for the tractor strength you need, while significantly lowering emissions. The Diesel Particulate Filter (DPF) Muffler reduces emissions to ensure its compliance with the latest Tier IV emission regulations.

### KUBOTA HST TRANSMISSION

Clutch-less for easy operation, our proven 3-range transmission provides optimal speeds to match your job. Choose Low range when you need extra power at low speed, Mid range for normal operations, and High range for transporting place to place. In addition, the brake pedal is positioned on the left side.
