Engineering Precision
When your job demands precision, you need precisely engineered equipment. Kubota Construction Equipment has earned a solid reputation for well-engineered products that are consistently reliable and can be depended upon to deliver results day in and day out. Our reputation is so trusted that many other Construction Equipment manufacturers have relied for years on durable Kubota diesel engines to power their machines.

The way we see it, if you trust Kubota to engineer a great engine, why stop there? Kubota builds its Construction Equipment from the ground up and from the inside out, with our world-renowned diesel engines at their core. It’s our commitment to quality and precision engineering that has propelled Kubota to become a global leader in compact excavators, and that has paved the way for us to successfully introduce new construction equipment product lines. Among them, our SVL Series compact track loaders, SSV Series skid steer loaders, and our performance-matched attachments, including Kubota’s award-winning 6-in-1 blade. We welcome you to experience the world of precisely engineered Kubota Construction Equipment for yourself.

We Are Kubota
Kubota Corporation was established in 1890 and has become an international brand leader with a focus on contributing to society by offering environmentally compatible equipment designed to improve quality of life. Kubota was the first agricultural machinery manufacturing company in Japan to receive the prestigious “Deming Award” for manufacturing excellence. Over the years, the company’s global reach has expanded to include subsidiaries and affiliates that manufacture and/or market products in more than 130 countries. Kubota has also earned global leadership in manufacturing of compact diesel and gasoline engines for industrial, agricultural, construction, and generator applications.

Here in the U.S., Kubota has firmly rooted itself as a market leader in the equipment industry. Established in 1972 as a compact tractor company, Kubota Tractor Corporation now proudly markets and distributes Kubota-engineered and manufactured machinery and equipment, including a complete line of tractors of up to 170 gross hp¹, performance-matched implements, compact and utility-class construction equipment, consumer lawn and garden equipment, hay tools and spreaders, commercial turf products, and utility vehicles. Kubota equipment is sold and serviced in the United States through a nationwide network of more than 1,100 authorized Kubota dealers.
HIGHER REACHING PRODUCTIVITY

GREATER POWER NOW COMES IN A SMALLER PACKAGE. OUR NEW SSV SKID STEER LOADER IS EASIER TO TRANSPORT FROM SITE TO SITE AND EASIER TO MANEUVER IN TIGHT SPACES. IT OFFERS MORE COMPACT POWER FOR ANY TALL ORDER AT A LOWER PRICE THAN MORE UNWIELDY LOADERS.

SSV 65

» 64 HP\(^1\) / 1950 lbs. ROC

SSV 75

» 74.3 HP\(^1\) / 2690 lbs. ROC
Kubota’s vertical lift is designed to deliver exceptional performance when loading trucks.

- Optimally designed arm allows for long reach and leading hinge pin height.
- Optional Self-leveling and Ride-control package is available.

High productivity requires versatility and the SSV is ready to deliver.

- Transport in low- or high-speed range.
- Move more material faster in applications such as agriculture, construction, and landscaping.
- Offers abundant power and high ground clearance.

Increase operator comfort in our roomy, fatigue- and stress-reducing cabin, encouraging all-day alertness.

- Wider entrance affords effortless entry and exit.
- The sliding front entry door can be opened or closed regardless of loader position.
- Dust-resistant, pressurized cabin has an optimized air conditioning and climate control system.

Wider entrance affords effortless entry and exit.

- The sliding front entry door can be opened or closed regardless of loader position.

- Dust-resistant, pressurized cabin has an optimized air conditioning and climate control system.
» A new level of operator comfort helps you work more efficiently and with less fatigue.

» An optional multi-function lever allows fingertip control of all major vehicle and implement operations.

» The sliding side windows are split in the middle and can be opened separately from the front or rear.

» Excellent rear visibility improves maneuverability on the job site.

» Cab models feature air conditioning for all year round operator comfort.

» The cab is radio ready with speakers, wiring, and antenna standard equipment.

» Flip a switch on the hydraulic quick coupler to hook up or remove attachments without leaving your seat.

» Discover the increased lifting capacity, higher lift heights, and overall higher productivity of the SSV Series.

PERFORMANCE AND PRECISION—ABOVE GROUND AND BELOW

THE SVL SERIES OFFERS BEST-IN-CLASS BUCKET BREAKOUT FORCE AND LIFTING CAPACITY FOR GROUNDBREAKING NEW LEVELS OF PERFORMANCE AND PRODUCTIVITY.

**SVL 75-2**

» 74.3 HP / 2300 lbs. ROC

**SVL 95-2s**

» 96.4 HP / 3200 lbs. ROC
« Powered by 4-cylinder Kubota CRT Tier 4 Certified engines with 74.3\(^1\) and 96.4\(^1\) horsepower, these best-in-class engines are equipped with Common Rail Fuel Injection and Diesel Particulate Filters (plus additional Selective Catalytic Reduction system on SVL95-2s) to match outstanding performance with increased fuel economy and greatly reduced exhaust emissions.

« Highest breakout force in their class, the SVL75-2 and SVL95-2s can easily load all material.

« Vertical lift design and low center of gravity deliver exceptional stability.

« Standard-equipped two-speed travel and high-ground clearance ensure excellent travel performance on difficult terrains.
» Both SVL’s have standard auxiliary hydraulics to power most attachments.

» The SVL Series with optional Hi-flow is suited for high capacity attachments with ½" or ¾" couplings.

» Comfortable and spacious cab area features a luxurious, high-back, adjustable full-suspension seat and plenty of legroom.

» Convenient large tool box available for storing a grease gun and other necessities.

» Kubota’s best-in-class 4-cylinder CRT Tier 4 Certified engines are available with 74.3 \(^1\) and 96.4 \(^1\) horsepower.

» Diesel Particulate Filter (DPF) (plus additional Selective Catalytic Reduction (SCR) system on SVL95-2s) meets Tier 4 emissions regulations.

» Angled track frame cover prevents soil from accumulating during operation.

» Easy maintenance features include a large engine compartment door to access all components for daily routine checks.

» Both SVL’s have standard auxiliary hydraulics to power most attachments.

» The SVL Series with optional Hi-flow is suited for high capacity attachments with ½” or ¾” couplings.

POWERHOUSES OF EXCAVATION

GET DOWN TO BEDROCK WITH THESE POWERHOUSE EXCAVATORS. THE KX SERIES HAS EARNED HIGH MARKET ACCLAIM FOR OUTSTANDING UTILITY AND EXCEPTIONAL, EFFICIENT OPERATION.

**KX 040-4**
- 40.4 HP \(^1\) / 11’2.7”
- Digging Depth

**KX 057-4**
- 47.6 HP \(^1\) / 12’8.2”
- Digging Depth

**KX 080-4s**
- 66.6 HP \(^1\) / 15’1.1”
- Digging Depth
Remarkable breakout force of 14660 lbs. ensures high productivity in the toughest of applications (KX080-4s).

Advanced Load-Sensing Hydraulic System provides optimum oil flow to each cylinder, making operation under any load easier and smoother.

Kubota’s original ECO PLUS® prioritizes fuel economy and helps support the environment.

Activate Eco Mode with the flick of a switch and increase fuel savings 7-9% over Standard Mode.

For even greater fuel savings, activate the new ECO e PLUS Mode (KX080-4s only) for up to 16% fuel savings over Standard Mode.

Auto Idling System significantly reduces noise and fuel consumption.

Auto downshifting under load provides smoother turns and dozer work.
» Hydraulic 6-in-1 blade for KX040-4 angles 25° and tilts 10° make leveling and backfilling work incredibly easy.

» Easily operated dual auxiliary hydraulic ports expand attachments and versatility. *

» Oil-flow settings are adjusted and stored via a new digital panel for quick retrieval from job to job.

» Superior cabin design features air conditioner, two-pattern selection system, 2-speed travel switch, deluxe suspension seat, and retractable seat belt.

» Triple Open Covers, ground-level access, and angle track frame gives you easy, hassle-free maintenance.

* KX040-4 and KX057-4 optional, KX080-4s standard

- Superior stability with long tumbler distance and wide variable track width (KX018-4) enables you to safely perform jobs using a host of Kubota attachments.

- Low sound level increases operator comfort and allows more work in residential areas.

- Unique compact size increases productivity in confined areas.

- Larger more comfortable operator space lessens operator fatigue improving overall productivity and operator comfort.

- Improved versatility with increase in auxiliary hydraulic flow and standard auxiliary diverter valve located on the dipper arm.
» Light lever action of hydraulic pilot controls provides enhanced front work group control.

» Variable-width track frame can be hydraulically retracted to fit through most doorways (K008-3) and gates (KX018-4).

» Expand track frame with the switch of a lever.

» One of the largest cabs in its class, the KX018-4 features ample legroom, adjustable seating, and a wide door to bring comfort to tough work.

» New digital display allows easy access and operation.

» Two-pattern selection system lets operator choose ISO or SAE operating pattern.

» Easy access makes engine maintenance simple.

1 - Gross HP per SAE J1995; 2 - Variable Width Tracks; 3 - Canopy, rubber
ULTRA-DURABLE. ULTRA-MANEUVERABLE. ULTRA-PRODUCTIVE.

THE U SERIES EXCAVATORS OFFER PERFORMANCE, DURABILITY, CONVENIENCE, AND COMFORT TO HELP YOU TACKLE TOUGHER JOBS IN EVEN TIGHTER SPACES.

**U17**
- 16.1 HP\(^1\) / 7' 7" Digging Depth

**U25**
- 20.9 HP\(^1\) / 9' 3" Digging Depth

**U35-4**
- 24.8 HP\(^1\) / 9' 8.9" Digging Depth

**U55-4**
- 47.6 HP\(^1\) / 11' 10.3" Digging Depth
Kubota’s original ECO PLUS® prioritizes fuel economy and helps support the environment (U55-4).

Activate Eco Mode with the flick of a switch and increase fuel savings of 9% over Standard Mode (U55-4).

Two-pattern selection system lets operator choose ISO or SAE operating pattern.

Zero and tight tail swing offers excellent balance, stability, and faster operations in confined areas.

Hydraulic variable-width track frame retracts to fit through gates, expands for stable operation (U17).

Powerful bucket breakout force can tackle the toughest excavation jobs.

Bucket breakout force by model:
- U17 = 3,417 lbs.
- U25 = 5,765 lbs.
- U35-4 = 7,924 lbs.
- U55-4 = 11,177 lbs.
» Kubota diesel engine improves fuel efficiency, increases output and torque rise, and decreases noise and vibration.

» ROPS/OPG Top Guard cab and canopy models give operator unsurpassed protection.

» Unique hydraulic system and large-capacity variable displacement pumps deliver the best performance-matched boom, arm, and bucket movements in the industry.

» Add a hydraulic angle blade with float to significantly increase productivity.

» Ergonomically designed suspension seat with weight compensation, wider foot area, and armrests provides unmatched operator comfort.

» Optional cabs offer spacious operator area with A/C, interior light, and windshield wiper/washer for comfortable and efficient all-weather operation.

» Double-flanged lower track rollers and V-shaped lugs provide maximum traction, balance, and stability.

» Digital display enhances productivity and makes operation easier.

BUILT TO LAST AND HAUL MASS.

OUR HIGHLY VERSATILE R SERIES WHEEL LOADERS ARE EQUIPPED WITH STATE-OF-THE-ART FEATURES TO OFFER UNRIVALLED VISIBILITY, UNRELENTING POWER, AND UNMATCHED PRODUCTIVITY FOR MANY WORRY-FREE YEARS TO COME.
The R630 electronic HST offers 4 operating modes to quickly and easily choose the most suitable mode depending on the machine’s application.

R630’s enclosed canopy ensures year-round comfort.

4-wheel drive, 100% on-demand differential lock and rear frame oscillation provide excellent traction and stability (R530 & R630).

Over 12 ft. reach from pivot maximizes productivity and versatility.
» Ultra-comfortable cab offers great visibility, a suspension seat, and hanging-type foot pedals.

» Easy access makes engine maintenance simple.
» Equipped with Kubota’s own powerful Tier 4 diesel engine.

» Joystick mounted FnR switch allows on-the-go directional changes without clutching or braking.

» Make fast, safe, and easy attachment changes with the Quick Coupler.
» Frame oscillation of +/- 8 degrees ensures continual ground contact for better stability and performance.

TOOLS TO TRANSFORM YOUR WORLD

OUR UNIQUE LINE OF 4WD UTILITY TRACTORS IS VERSATILE AND RUGGED ENOUGH TO LANDSCAPE OR LOAD UP THE FARM, THE FRONT YARD, OR THE GROUND FLOOR OF ANY CONSTRUCTION SITE.
Tractors are available as either Tractor/Loaders (TL) or Tractor/Loader/Backhoes (TLB).

Backhoes are quick attach, exposing a Cat I or Cat II (depending on model) 3-point hitch, and a hydraulic independent PTO.

Optional hitch components are stored on the tractor.

E-TVCS diesel engines provide a total balance of high torque, low noise, low vibration, low emissions, and quick starts on cold mornings.

The B26, L47, and M62 feature HST transmissions to control both speed and direction changes easily without shifting or clutching.

The L47 and M62 also feature a backhoe crawling mode to reposition the machine when using the backhoe.
» Quick couplers combine with auxiliary hydraulics for quick attachment changes and a variety of tools for both the loader and backhoe as well as the 3-point hitch.

» Sloped loader arms match the slanted hood for improved visibility in tight working areas.

» Braceless loader frame improves visibility and service access.

» Side-positioned loader controls, display, and engine controls provide operator ease and information at a glance whether using the loader or the backhoe.

» Powered by reliable 26 1/2, 47 1/2, and 63 1/2 horsepower Kubota diesel engines.

» Throttle-up switch increases engine speed (rpm) without increasing travel speed.

» Quick coupler with auxiliary hydraulics

» L47 / M62 controls & display

» L47 / M62 display

» M62

» L47

GET ATTACHED TO UNLIMITED VERSATILITY.

THE FOLLOWING PRECISION ENGINEERED LINE-UP OF KUBOTA ATTACHMENTS AND ACCESSORIES ARE DESIGNED TO TRANSFORM YOUR MACHINE INTO A DO-IT-ALL JOBSITE WORKHORSE. THESE EASY-TO-USE TOOLS WILL NOT ONLY EXPAND THE CAPABILITIES OF YOUR EQUIPMENT, THEY’LL INCREASE OPPORTUNITIES FOR GREATER PROFITABILITY.
### SSV + SVL Series / Accessories & Attachments

- **buckets / material handling**  » 35
- **multi-use attachments**  » 38
- **landscape attachments**  » 39
- **snow attachments**  » 41
- **accessories**  » 42
- **enclosure kits (SVL only)**  » 45

### Kx and U Series / Accessories & Attachments

- **excavator buckets**  » 48
- **attachments**  » 49
- **controls, comfort, and convenience**  » 51
THERE’S AN ATTACHMENT FOR THAT.

TWO MACHINES WITH MANY USES. IF THERE’S A JOB, THEN THERE’S A SPECIALIZED SSV OR SVL ATTACHMENT THAT CAN HANDLE IT. WHETHER IT’S A PILE OF DIRT, DEBRIS AND ROCKS, OR A PILE OF SNOW, YOU CAN CUSTOMIZE YOUR KUBOTA TO HAUL, CUT, GRAPPLE, LOAD, GRIND, DRILL, AND TILL. AND, ONCE THE HEAVY WORK IS DONE, YOU CAN RAKE THE GROUND SMOOTH AGAIN.
BUCKETS / MATERIAL HANDLING

Realize the full potential of your Kubota Skid Steer Loader or Compact Track Loader with an ever-expanding array of versatile bucket attachments and pallet forks. Each one will help you save loads of time and effort in a multitude of efficient ways.

**STANDARD DUTY BUCKETS**

All buckets have side cutters and cutting edges or welded teeth. They come in two profiles, Standard Floor (SF) or Long Floor (LF), and in widths of 68” and 74”. Standard Duty Buckets are recommended for most skid steer applications including agricultural, landscaping, and some construction applications.

**AVAILABLE FOR:** SSV65 / SSV75

**HEAVY DUTY BUCKETS**

Available in widths of 68", 74", and 80" these buckets are the buckets of choice for traction force and applications of our compact track loaders. For our skid steers, the 68" and 74" heavy duty buckets are ideal when working in heavy duty applications including concrete work, heavy and predominant excavation, mining, and recycling.

**AVAILABLE FOR:** SSV65 / SSV75 / SL75-2 / SVL90-2 / SVL95-2S

**CB25 COMBINATION BUCKET**

- 68", 74", 80"
- Dual cutting edge on jaw
- Bolt-on edge on back blade
- Cylinder protection
- Optional counterbalance valve
- Struck cap. 10–16 cu. ft.; Heaped cap. 15–22 cu. ft.

Concrete contractors, landscapers, dirt contractors, and farmers can perform grapple, dozer blade, bucket, and back drag actions with the CB25.

**AVAILABLE FOR:** SSV65 / SSV75 / SL75-2 / SVL90-2 / SVL95-2S

**SRB15 ROCK BUCKETS**

- 66", 72", 78"
- 3" Teeth spacing
- 3/8" Tooth thickness
- Grade 80 steel tine material
- 38" Working length

The SGR15 Rock Bucket is designed to do the dirty work, moving volumes of material quickly and efficiently.

**AVAILABLE FOR:** SSV65 / SSV75 / SL75-2 / SVL90-2 / SVL95-2S
SIDE CUTTER REPLACEMENT KIT
(Left and Right - fits all 68", 74", 80" Buckets)
These Bolt-On Side Cutters (BOSC) greatly extend bucket service life and improve penetration power into hard-packed soil or stockpiled materials. BOSC’s are a standard feature on Kubota’s buckets and their major purpose is to extend service life of the bucket corners and reduce downtime for costly rebuilds.
AVAILABLE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

PFL45 & PFL55 PALLET FORKS
» PFL45: 48", PFL55: 48", 60"
» Forks adjust to 4" spacing
» Spring loaded toggle fork position lock
» Wide frame with step
» Removeable top center bracket
Useful for landscaping, farming, ranching, construction, nurseries, campuses, theme parks, salvage operations, warehouses, lumber yards, retail outlets, and more.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SH35 SKID STEER HITCH
» Fits Cat. 1 or 2 implements
» Adjustable top hook
» Universal skid plate
» Built in 2" receiver hitch
» Automatic locking
Quickly and easily attach to Cat. 1 or 2 implements that are not PTO-driven such as box scrapers, landscape rakes, soil pulverizers, and hydraulically driven powered rakes.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

Grapples
No matter how gnarly or oddly shaped the load gets, there’s an SSV or SVL that can get a grip on it. Rubble and brush are no match for Kubota’s standard equalizer valve, which ensures equal clamping force across the entire grapple surface.

SGC20 CLAW GRAPPLES
» 72", 84"
» 6" Teeth spacing
» 1/2" Tooth thickness
» High tensile AR400 steel
» 6" x 6" Frame tube
Claw Grapples make quick work of large jobs, and can be used to rake, dig, and move rocks, trees, brush, and construction debris without picking up dirt.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S
SGR15 ROCK GRAPPLIES
» 66", 72", 78"
» 3" Teeth spacing
» 3/8" Tooth thickness
» Grade 80 steel tine material
» 37" Jaw opening
The Rock Grapple features 3" spacing between the teeth allowing small rocks, soil, and debris to be sifted, leaving the larger material locked in its jaw.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SGM15 MANURE GRAPPLIES
» 66", 72", 78"
» 40" Jaw opening
» Single 2" x 8" cylinder with 1-1/4" rod
» 1-1/4" Greaseable pins on all pivot points
Manure Grapples are a must-have tool for moving hay, barn cleaning, or general yard maintenance and will make chores around the farm a breeze.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

GB30 SCRAP GRAPPLIES BUCKET
» 68", 74", 80"
» ¼" Two-piece shell
» ½" End panels
» Five bottom wear bars
» ¾" Grapple tines
» Hard hydraulic lines
Demolition crews, recycling plants, municipalities, junk yards, and rental yards can retain debris until it is piled or loaded.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

RG30 ROOT GRAPPLIES
» 68", 74", 80"
» Gusseted ½" frame tines
» ¾" Thick grapple tines
» Greaseable pivot points
» Wide tine spacing
» Hard hydraulic lines
Farmers, landscapers, nurseries, construction crews, tree services, and rental fleets are able to pick up large debris off of the ground, while separating out dirt and other small material.
AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S
MULTI-USE ATTACHMENTS

Kubota’s SSV and SVL multi-use attachments are designed to extend the near-limitless versatility of your machine. Augers, hammers, and angle brooms can be used on any job site by a wide variety of industry professionals.

**SA20 HYDRAULIC POST HOLE DIGGER**
- 10-30 gpm; 2 Motor options
- 6" - 36" Diameter augers
- 2" Hex output shaft
- Center and 18" offset mount to the right
- Planetary gearbox

The SA20 is ideal for nurseries, landscapers, contractors, construction companies, farmers, ranchers, and municipalities.

**AVAILABLE FOR:** SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

**SA35 HYDRAULIC POST HOLE DIGGER**
- 15-25 gpm
- 9" - 36" Diameter augers
- 2" Hex or 2-9/16" round output shaft
- Planetary gearbox

The SA35 meets the industrial duty applications of nurseries, landscapers, contractors, construction companies, farmers, ranchers, and municipalities. The 36" auger is perfect for planting ball rooted trees.

**AVAILABLE FOR:** SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

**KBX560Q HAMMER**
Hydraulic Breaker. The KBX560Q hammer is available for both SSV’s and SVL’s.
*Note: it is required to use a door with Polycarbonate glass when using a hammer/breaker.*

**AVAILABLE FOR:** SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

**REQUIRES:** SPECIAL APPLICATION DOOR

**HAMMER MOUNTING BRACKET**
Hydraulic Breaker Bracket. A Heavy Duty mounting bracket is available for the KBX560Q hammer/breaker.

**AVAILABLE FOR:** SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

**REQUIRES:** HAMMER (KBX5650Q)
AB ANGLE BROOMS
- 72”, 84”
- Hydraulic range: 12-30 gpm
- Brush speed: 100-230 rpm
- 32” Brush diameter
- Replaceable hex drive system
- Poly, wire, or combination bristles

Angle Brooms are ideal for construction site cleanup, road maintenance, light snow removal on paved surfaces, and cart path maintenance.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

LANDSCAPE ATTACHMENTS

Tame the wild with landscape attachments that are specifically engineered to make the SSV and SVL perfect machines for any municipal and commercial landscaper. If nature can grow it, then there’s a landscaping attachment to chop, grind, pull, rake, and till it down to size.

SR27 POWERED RAKES
- 72": 12-19 gpm / 90": 15-23 gpm
- Rigid or float option
- Manual or hydraulic angle
- Cast chain housing
- Larger U-bolts on gauge wheel

Landscapers, nurseries, rental yards, and housing contractors can prep and level ground for seeding, remove unwanted material and debris, and rejuvenate driveways and gravel lots.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SRF27 POWERED RAKE
- 72": 12-19 gpm / 90": 15-23 gpm
- Fixed hitch - no angling
- Cast chain housing
- Larger U-bolts on gauge wheel

Landscapers, nurseries, rental yards, and housing contractors can prep and level ground for seeding, remove unwanted material and debris, and rejuvenate driveways and gravel lots.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SC25 ROTARY CUTTERS
- 60”, 72”; 15-25 gpm
- 2” Diameter cut capacity
- 1-1/2” - 18” Cutting height; infinitely variable
- 10 Gauge steel deck; 1/4” side skirt

Ideal for tightly restricted areas under fences, in and around boxed in corner sections of corrals and out buildings, vineyard, nursery rows, wooded lots, and approaches to ditches and waterways.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S
SC40 SKID CUTTER
» 60", 72"
» Motor options: 15-25 gpm and 26-43 gpm
» 4" Diameter cut capacity
» 1/4" Deck thickness
» Pressure gauge
» Tampered full length skid shoes
» Inline bearing
Farmers/ranchers, developers, contractors, and rental yards can clear land or small trees, shrubs, bushes and grass.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SG25 SKID GRADER
» 72", 84"
» Standard ripper teeth
» Bi-directional blades; Adjustable cutting angles
» Replaceable skid shoes
» Correct hitch angle
» Bucket carrier on top
Landscapers, contractors, homeowners, rental yards, and developers can level construction sites, or for seed preparation and rejuvenating driveways and parking lots.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SSG25 STUMP GRINDER
» 17-32 gpm; 1100 rpm
» 24" Diameter cutting wheel
» Maximum cutting arc of 55 degrees
» Hydraulic motor with electric over hydraulics
» Depth of 8" below ground
» 1/2" Thick by 20" diameter with carbide teeth
A great choice for contractors, landscapers, and forestry departments, the SSG25 turns large stumps into small chips.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

STP15 TREE/POST PULLER
» 30-65 HP
» 10" Jaw opening
» Laser cut saw tooth design
» 3" x 3-1/2" Square tubing frame
» Cylinder cover
Great for residential and small landscaper uses with moving shrubs, saplings, and small trees; pulling them from the ground, roots and all.

AVAILABLE FOR: SSV65
STP25 TREE/POST PULLER
- Top to bottom pivot shaft
- Interlocking teeth on the jaws
- Reinforced jaws
- Shielded cylinder
Farmers/ranchers, fence builders, homeowners, recycling plants, municipalities and rental yards can use the STP25 to pull trees, bushes, poles, or posts out of the ground, leaving no root or stump to contend with.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SRT25 SKID TILLER
- 62", 76"; 14-42 gpm
- Case drain protection
- Ripper shanks
- Forward or reverse rotation
- Spiral rotor design with C-shaped bi-direction tines
Forward and reverse rotation tillers are great for seedbed or garden plot soil preparation used in landscaping, nurseries, gardens, and light commercial applications.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SNOW ATTACHMENTS
Keep travel flowing at all elevations with these Kubota snow removal attachments. Whether it’s blowing snow from a park pathway or clearing a major thoroughfare, this versatile line-up of snow attachments will make safe and short work of all snowy conditions.

SBL25 SNOW BLOWERS
- 66", 74", 84"; 12-33 gpm
- 3/16" Side plate material
- 24" Diameter impeller; 4 Impeller blades
- 16" Diameter auger; 4 Auger paddles
These snow blowers remove snow from parking lots, farm yards, feedlots, driveways, walking paths, and sidewalks in residential and commercial areas.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

SSP15 SNOW PUSHERS
- 72", 84", 96"
- 30" Moldboard, 29" depth
- AR400 Skid shoes
- Rubber pull back blade option
- Adjustable rubber or steel cutting edge
The SSP15 pushes snow and other loose materials straight ahead without leaving windrows on the side or damaging the pavement below when using the optional rubber snow blade.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S
SSP25 SNOW PUSHERS

- 96"
- 36" Moldboard, 35" Depth
- Rubber pull back blade
- Exterior gussets
- Adjustable rubber or steel cutting edge
- AR400 skid shoes

Push snow and slush straight ahead without leaving windrows or use the optional pull back blade to remove snow close to garage doors.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

TB25 TRIP BLADE

- 96", 108"
- Steel moldboard construction
- 10 Gauge moldboard thickness
- Adjustable spring loaded trip edge protection

Ideal for landscapers, construction companies, farmers, ranchers, homeowners, school systems, and municipalities to push snow or light aggregate materials such as pea gravel or livestock feed.

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL90-2 / SVL95-2S

ACCESSORIES

These accessories and upgrades were designed to make your job easier, safer, and more comfortable. They help your machine be more visible, give you a smoother ride, and provide added safety features that comply with local regulations where applicable.

RADIO

AVAILABLE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

HOSE STAY

Keep your accessory or attachment hoses organized and safe with this Hose Guide Bracket. SVL75-2 / SVL95-2s model shown.

AVAILABLE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

SPECIAL APPLICATION TILT-UP DOOR

(Built by KBT)

This high quality Tilt-Up Door features tough polycarbonate-glass to protect the operator from flying debris. It is required when using a hammer/breaker. Available for SVL factory Cab and SSV factory Cab or ROPS models.

AVAILABLE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S
14-PIN CONNECTOR FOR ATTACHMENT CONTROL
The industry standard 14-Pin connector is an option and is used to control 2-functions on an attachment. The 4-wire system is using industry standard connector numbers.
AVAILABE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

MULTI-FUNCTION CONTROL GRIP KITS
Used in conjunction with the 14-Pin connector for attachments requiring electrical on-off and momentary switch inputs.
AVAILABE FOR: SSV65 / SSV75 - HAND AND FOOT CONTROLS ONLY

ENGINE BONNET LOCK KIT
Engine compartment door can be locked with this optional key-lock.
AVAILABE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

ENGINE BLOCK HEATER
A Block Heater keeps the engine warm in cold temperatures and helps eliminate cold start engine damage. These Block Heaters are simple to install and are a reliable and efficient way to pre-heat your engine block.
AVAILABE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2

RETRACTABLE SEAT BELT 3" WIDE
The 3" Seat Belt Kit is a replacement for the 2" seat belt shipped from the factory. Use the 3" Seat Belt Kit to increase operator comfort and as required in some states for OSHA compliance.
AVAILABE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

AIR RIDE SEAT SUSPENSION KIT
This Air Ride Seat Suspension Kit provides the operator with ultimate comfort when working on uneven terrain. SVL seat model shown.
AVAILABE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

STROBE LIGHT KIT
When working in cities and areas with a lot of foot traffic, a Strobe Light Kit is a great added safety feature. Consumes ½ Amps.
AVAILABE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S
ROTATING BEACON LIGHT KIT
When working in cities and areas with a lot of foot traffic, a Rotary Beacon Light Kit is a great added safety feature. Consumes 5 Amps.

AVAILABLE FOR: SSV65 / SSV75 / SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

ACCESSORIES (SVL only)

MULTIFUNCTION GRIP FOR SVLs
In order to control multifunctional attachments, up to 6 functions, an additional control handle can be added to the Left Hand joy stick. One on-off switch and 6 momentary switches with 8 wires allows you to use your old or existing attachments with the common 14-pin connector. Kit comes with 14-pin pre-wired connector.

*Not applicable for SVL75-2 with Kubota Exclusive Large Grips.

AVAILABLE FOR: SVL75 + SVL75-2* / SVL90 + SVL90-2 / SVL95-2S

RADIATOR SCREEN KIT
The Radiator Screen reduces downtime for radiator cleaning as it can be pulled out on regular intervals to remove leaves and other debris that would otherwise collect between the cooling fan and the radiator. The radiator needs to be pulled forward to access the screen.

AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

RED TAIL LIGHT KIT
Tail Lights are required by law in some states if you plan on operating on public roads.

AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

REAR VIEW MIRROR
For added rear visibility.

AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S
ENCLOSURE KITS (for SVL ROPS models only)

Enclosure Kits transform your open ROPS SVL into a full cab machine. Offered as separately available components, such as the heater kit, you can customize your SVL cab to suit your regional weather and usage conditions. Popular kit components include side windows, as they afford the most protection from wind, rain, and dust. The intelligently designed entry door swings outward and is equipped with a release handle to separate the window from the steel door in case of attachment or debris blockage.

Swing Door Kit

This Swing Door Kit features Quick Release glass which allows the operator to easily exit the SVL in case the position of the attachment does not allow the swing door to open, or when material or debris blocks the door.

SPECIAL APPLICATION SWING DOOR - POLYCARBONATE
(includes Quick Release handles) Required for the use of hammer/breaker.
AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S

SPECIAL APPLICATION SWING DOOR KIT W/ FRAME AND WIPER
Front Swing Door Kit with Quick Release and Tempered Glass.
AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2

SLIDING SIDE WINDOW KIT
Sliding Side Windows allow the operator to close the cab during cold weather or open up the windows for venting when it’s warm.
AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2

HEATER KIT
Cab Heat Kit for ROPS with Door and Side Window Kit. Working in the cold is made comfortable and efficient with this Cab Heat Kit.
AVAILABLE FOR: SVL75-2

WINDSHIELD WASHER BOTTLE KIT
Wash away dust and mud for a clear field of vision with this Front Window Washer Kit for the Swing Door.
AVAILABLE FOR: SVL75-2
CIRCULATION FAN KIT
Circulate the air inside the enclosed cab with this easy-to-install Circulating Fan Kit.

AVAILABLE FOR: SVL75-2

MOUNTING PLATE KIT
Mount Bracket for Magnetic Bases with Control Handles.

AVAILABLE FOR: SVL75 + SVL75-2 / SVL90 + SVL90-2 / SVL95-2S
TAKE YOUR EXCAVATOR TO THE HIGHEST LEVEL OF PERFORMANCE AND PRODUCTIVITY.

YOUR KUBOTA EXCAVATOR ALREADY PERFORMS AT THE HIGHEST LEVELS OF ITS DESIGN AND IS CAPABLE OF EVEN MORE. THE HEAVY DUTY ATTACHMENTS, TOOLS, AND ACCESSORIES OFFERED HERE ARE OF THE HIGHEST QUALITY, ENGINEERED TO FIT YOUR KUBOTA EXCAVATOR AND DESIGNED TO TAKE YOUR MACHINE TO THE NEXT LEVEL.
EXCAVATOR BUCKETS

Your Kubota Excavator is an outstanding working tool capable of performing a wide variety of jobs. Increase the versatility of your Kubota to get the job done more quickly and easily with these high-quality buckets. Kubota buckets are designed for an easy cut, and feature tapered side plates, horizontal wear straps, an extra rigid channel, and tip radius to Kubota specifications.

Trenching Buckets

Trenching Buckets are recommended for moderate to heavy soil with loose rock. All Kubota Trenching Buckets feature quality construction with high-strength steel. Pin-on buckets are available in orange. Quick attach buckets are available in blue.

PIN-ON

Pin-on trenching buckets are available in a variety of widths from 8" to 36".

QUICK ATTACH

Quick attach trenching buckets are available in a variety of widths from 9" to 36".

Ditch Cleaning / Grading Buckets

Ideal for ditch maintenance, construction, grading, and finish work (DCG buckets have no teeth). Features include a rigid top channel and bottom wear straps for extra reinforcement and longer work life. Kubota recommends the optional bolt-on cutting edge with these buckets.

PIN-ON & QUICK ATTACH

Ditch Cleaning / Grading Buckets are available in a variety of widths from 36" to 60" in Pin-On and Quick Attach models.
AVAILABLE FOR: KX040-4 / U55-4 / KX057-4 / KX080-4s
**Tilt Grading Buckets**

Recommended for angled slope work, ditch maintenance, grading, and finish work, Tilt Grading Buckets feature 45° hydraulic tilt action. Kubota recommends using the optional bolt-on cutting edge with these buckets.

**QUICK ATTACH**

Tilt Grading Buckets are available in a variety of quick attach widths from 36" to 54".

**AVAILABLE FOR:** KX71-3 / KX033-4 / U35-4 / KX040-4 / KX080-4s

---

**Cemetery Bucket**

Originally designed to dig graves, the Cemetery Bucket is ideal for any job that requires straight, vertical wall digging at maximum depths. The flat bottom and round back ensure there is no drag when curled.

**36" CEMETERY BUCKET**

**AVAILABLE FOR:** U55-4 / KX057-4

---

**Quick Coupler**

Quickly and easily exchange your excavator attachments, all without the use of tools. Quick Couplers are offered for almost the entire line of Kubota Excavators and maintain the original tip radius as pin-on buckets for powerful digging forces.

**TWO HOLE QUICK COUPLER**

Excellent breakout force for moderate to heavy soil conditions.

**AVAILABLE FOR:** U17 / KX018-4 / U55-4 / KX057-4

---

**THREE HOLE QUICK COUPLER**

Curl hole and power hole built into quick coupler. Use the curl hole for increased bucket rotation for truck loading. Use the power hole for excellent breakout force in tough digging applications.

**AVAILABLE FOR:** U25S / KX71-3 / KX033-4 / U35-4 / KX040-4 / KX080-4s

---

**HYDRAULIC QUICK COUPLER**

The Kubota Konnect® Hydraulic Quick Coupler system allows operators to easily, quickly, and safely exchange attachments. T-1 steel is used in all critical wear components to ensure that this coupler has a long operation life. Hardened bushings are used at all pivot points, as well as hardened pins for wear and corrosion. Various safety features are incorporated in the coupler design to ensure safety and positive hook-up. The Kubota Konnect® system is the most convenient way to speed Kubota excavator attachment changes.

**AVAILABLE FOR:** KX040-4
ATTACHMENTS

Your Kubota Excavator is designed for ultimate performance. The high-quality work tools and accessories offered here are engineered to fit your Kubota Excavator perfectly and take your machine to the next level.

HYDRAULIC THUMB KIT
The Hydraulic Thumb greatly enhances the versatility of your Kubota Excavator. It is excellent for manipulating, handling, or loading irregular-shaped objects, debris, rocks, and can even pick up logs. It is custom-designed to match bucket tip radius and is retractable (out of the way) for trenching.

HYDRAULIC BREAKERS
These Hydraulic Breakers are powerful percussion hammers fitted to your Kubota excavator for demolition and recycling applications. Kubota offers Hydraulic Breakers for the entire line of excavators.

FLAIL BRUSH SHREDDER
The K4080 is a severe-duty brush shredder that has a 1/2" thick cutter drum with 5/8" ears holding 24 - 2.25 lb. outer knives and 12 - 2 lb. inside knives and does not require a case drain. The integrated thumb saddle is used in conjunction with the thumb to pick up debris and move obstacles.

AVAILABLE FOR: KX080-4s

24" FROST RIPPER
Designed to pre-rip frozen ground or soil, this tool can also break roots, remove stumps, and rebar. This Frost Ripper features a single point tooth and a heavy-duty ripper shank for best penetration. An extra heavy-duty upper gusset helps prevent tooth torque on tough jobs.

AVAILABLE FOR: U55-4 / KX057-4 / KX080-4s

GRADING BLADE
Grading Blades are useful for back filling, finishing grade, loose dirt, stone, and landscape finishing and shaping. The backed cutting edge has a reinforced plate and side wear plates reinforce the edge, blade, and rear plate. The edge features an extra thick cutting edge and a reinforced blade for longer life.

SOLID TINE GRAPPLE
The 36" Pin-On Solid Tine Grapple is an extremely versatile attachment designed to handle various objects such as brush, rocks, and demolition debris. This tool features a wide mouth opening for greater range when grappling brush.

AVAILABLE FOR: KX080-4s
EXCAVATING RAKE
The Excavating Rake is recommended for land clearing, gathering demolition debris, and sorting material. These rakes are built with large gussets between the tines, a steel tube, and two skins for added strength.
AVAILABLE FOR: KX71-3 / KX033-4 / U35-4 / KX080-4s

VIBRATORY COMPACTOR
Ho-Pacs are ideal for trench, slope, and excavation compaction. Ho-Pacs compact in densities in excess of 95% Proctor. Ho-Pacs are also used for compacting waste materials and for breaking up frozen coal. Vibratory Compactors are Allied Approved attachments.

COMPACTION WHEEL
These Compaction Wheels feature multiple wheels with foot pads staggered for even compacting in a wide variety of soil conditions. Constructed with high-quality steel with replaceable bearings and wheels, this tool is built to last and offer years of service.
AVAILABLE FOR: KX080-4s

HYDRAULIC AUGER
All 75 Series hydraulic motors drive the auger through a sealed planetary gear reduction. The heavy-duty all-gear design gives these units a long life with minimal maintenance and service costs. Hydraulic Augers are Allied Approved attachments.
CONTROLS, COMFORT, AND CONVENIENCE

Working with your Kubota may make you feel like a king, but a long day’s work still deserves a little comfort in the cab. Alleviate some stress with Kubota Comfort & Convenience products. These radios and arm rests help make your Kubota feel like a home away from home. And the accessories enhance the versatility and productivity of your excavator.

HYDRAULIC BREAKER ACCESSORIES
Kubota offers everything you need to work with your new Hydraulic Breaker. Hose Kits, Quick Attach, and Pin-On Mounting Brackets put you and your Hydraulic Breaker to work quickly and safely.

BUCKET HANGERS
The bucket hangers are designed to convert a non-Kubota bucket to a Kubota quick attach bucket. Use these when a customer changes from another brand bucket and wants to keep the original attachments.

BOLT-ON CUTTING EDGES
The Cutting Edge of your Grading Bucket does the detail work. These Bolt-On Cutting Edges for Grading Buckets are an inexpensive way to strengthen the cutting edge and prolong the life of your Grading Bucket.

SPARK ARRESTER MUFFLERS
Working in extremely dry brush and grass may require the added safety of a Spark Arrestor. Order the Spark Arrestor Muffler as a replacement for the standard muffler. A Heat Shield (shown attached to the muffler) is required to complete the package.

AVAILABLE FOR: K008-3 / KX71-3 / KX033-4 / U35-4

SCREEN TYPE SPARK ARRESTER MUFFLER
Kubota also offers a Screen Type Spark Arrestor for installation in the muffler’s exhaust pipe for certain excavator models.

AVAILABLE FOR: K008-3 / KX018-4 / U25S
TRAVEL ALARMS
Get to and from the job site safely with a Travel Alarm Kit. Alert other workers that your Excavator is on the move.

CANOPY LIGHT KITS
Extend your work hours on dark days and late nights with a Canopy Light Kit. The boom light illuminates the bucket area. Canopy Light Kits illuminate the surrounding area.

STROBE LIGHT KIT
When working in areas where high visibility is required, a Strobe Light Kit is a great added feature.

MIRROR KIT FOR CABS
Use these Mirror Kits to monitor movement of construction vehicles, equipment, and personnel within the work zone.

BLOCK HEATER KITS
A Block Heater keeps the engine warm in cold temperatures and helps improve cold engine starting performance. These Block Heaters are simple to install and are a reliable and efficient way to pre-heat your engine.

STEEL TRACK KITS
Some of our customers are looking for longer track life under operating conditions such as sharp stones, recycling, and demolition applications. Steel Tracks are more durable under those conditions, and experience less damage to the track.

WIDE STEEL TRACKS / DOZER BLADE EXTENSION KIT
Wide Steel Tracks provide better flotation and decreased ground pressure, reducing damage to sensitive surfaces. Wide Steel Tracks enhance machine stability as well, especially over the side. Be sure to install the Dozer Blade Extension Kit so that the blade and track width match.

AVAILABLE FOR: KX080-4s
ADDITIONAL COUNTERWEIGHT KIT
Use the Additional Weight Kit with Thumb applications in combination with large loads or heavy attachments.
AVAILABLE FOR: KX080-4s

BRUSH GUARD KIT
Used for excavation, demolition, waste handling, construction or demolition sorting, and scrap-handling applications, this front- and top-operator protective guard meets the requirements of ISO 10262 1998 Level II Top, Front Guard.
AVAILABLE FOR: KX080-4s

TWO-WAY SERVICE PORT KIT
The K008-3 is equipped with a one-way service port for Hydraulic Breakers. Enhance the versatility and attachment use of your K008-3 with this Two-Way Service Port Hydraulic Kit to operate an Auger or similar attachment.
AVAILABLE FOR: K008-3

3" SEAT BELT KITS
The 3" Seat Belt Kit is a replacement for the 2" seat belt shipped from the factory. Use the 3" Seat Belt Kit to increase operator comfort and as required in some states for OSHA compliance.

TRAVEL PEDAL KIT
For our customers that want to keep their hands on the pilot controls when operating, install the optional Travel Pedal Kit for foot operation.
AVAILABLE FOR: KX018-4

RADIOS
Enjoy your favorite music or stay tuned to the latest weather forecast with this outstanding AM/FM/WB Radio with MP3 Port. Most excavators are radio ready, including speakers and antenna. Check your price book for details.
