TRAILER JACKS & LINKAGE

Tough & Reliable For Farm, Ranch, Construction

Designed and engineered totally forged with heat treated pins. Total forging provides better grain structure without built-in stress and more consistency in strength, quality and performance. Clevises are available with black powder coat paint and clevis pins are yellow zinc dichromate.

- High strength and excellent corrosion protection for long life
- Farm, straight, twisted, utility, and general purpose clevises available for use in farm, ranch, construction and homeowner applications
- A variety of sizes are available to fit the needs of any job
- Tractor drawbar grab hook is formed from medium carbon steel, quenched and tempered
- Do not exceed working load limits
- Clevises and tractor drawbar grab hook are not for lifting

Features and Benefits:

- Manufactured to the highest standards and in excess of aftermarket standards to ensure long lasting reliability.
- Powder coat paint finish on outer tubers—four times more weather and corrosion resistant than other painted jacks.
- Strong large diameter pin on most models for excellent side load strength for larger equipment and in field applications.
- Designed and engineered for compatibility with implements manufactured worldwide.
- Larger foot plate than many competitive brands providing more stability
